ADMINISTRATION REPORT, 1891-92.

No. 625 OF 1892.

FROM

H. O. QUIN, ESQUIRE,

Acting Tálukdári Settlement Officer;

To

J. K. SPENCE, ESQUIRE,

Commissioner, N. D.

Ahmedabad, 4th August 1892.

SIR,

I have the honour to submit the following report on the administration of the Tálukdári Settlement Department for the year 1891-92.

2. The office has been in my charge during the whole year, except for a period of seventeen days in September 1891, when I was on privilege leave. During that time Mr. Curtis acted for me, in addition to his own duties as Assistant Collector, Ahmedabad.

3. In the course of the travelling season I was able to visit the Sánand, Dholka, Viramgám, Dhandhuka and Gogha Tálukas of the Ahmedabad District, spending a good deal of time in the Dholka Táluka, in order to acquaint myself thoroughly with the condition of the estates there, the *jamás* of which are now being revised. In the Kaira District I visited only Nadiád and Mátar. The long delayed tour in Broach was this year undertaken by me, and I was able to visit the Broach, Vágra, A'mod and Jambusar Tálukas. It will thus be seen that I travelled over nearly the whole of my Charge except certain parts of the Kaira District, most of which, however, were visited last year.

4. The season of 1891-92 was not on the whole a good one, though in some places the outturn of crops was above the average. In parts of the Ahmedabad District the very heavy fall of rain at the beginning of the season caused a certain amount of damage, and there was an absence of late rain. Cotton and wheat were below the average, and in places the rice was a failure. In Kaira, the crops were considerably better than in Ahmedabad, and in Broach also the outturn was very fair. The fall in the price of cotton inflicted severe loss on many cultivators. Jowári and bájri did well in all the districts.

5. The following table shows at a glance the total number and revenue of estates of all descriptions under management and of the Tálukdári villages in Ahmedabad under revenue charge in the year under report, and the preceding year. The different classes of estates shown in the table are noticed separately below :—

	Number of Estates.		Aggregate Revenue for collection.		Amount realized by sale under decrees.	
	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1891-92.

Encumbered Estates in Ahmedabad.

6. The number of estates under management under Act VI of 1862 was, at the beginning of the year 1891-92, 60. The debts of the estate of Bhupatsing Sawabhai of Awánia having been paid off during the year, that estate has been released from management. No other estate has become free and the number now remaining under the operation of the Act is therefore 59. The estate which has been released is in a satisfactory condition.

7. The number of estates removed from the operation of the Act, but remaining under management on account of indebtedness to Government was, at the beginning of the year, 7. During the year one estate, that of Nagbhai Visabhai of Dumáli, liquidated its debt and has been released. Six estates, therefore, remain under management for debts due to Government. The balance of debt amounts to Rs. 8,513-11-10.

8. Of the estates at present under management as shown in Appendices I and IA.—

26 are managed directly by this office.
36 are managed by the Tálukdárs under the supervision of this office.
3 are managed by creditors under special arrangements.

65

9. The advance of Rs. 245 sanctioned in Government Resolution No. 6470, dated the 19th September 1891, has been taken from the Government Treasury and paid to the creditors of the estates of Virabhai Sumrabhai of Awania. No other advance was applied for or sanctioned during the year. The question of paying from the Government Treasury the debts of the estates of Aniáli, Dábhsar, Sinaj and Jethipura is still under consideration; but it is feared that the condition of the three first-named of these estates is not sufficiently prosperous to allow of such a course being taken.

10. The financial position of all the encumbered estates in Ahmedabad is shown in Appendices I and IA. An abstract of these statements is contained in Appendix IV, from which it will be seen that Rs. 19,641 were paid to private creditors and Rs. 20,240 to Government, and that a sum of Rs. 2,91,265 remains to be paid, of which Rs. 1,58,290 are due to private creditors and Rs. 1,32,975 to Government.

11. The payments made on account of debt settlement during the year under report, and those made during the previous year are shown together for comparison in the following table:—

	1890-91.	1891-92.
	Rs.	Rs.
Total debt outstanding at commencement of the year ...	1,47,196	*3,23,974
Added during the year	1,94,089	...
	3,41,285	3,23,974
Paid during the year—		
To reduction of debt	17,304	32,709
To interest on loans	6,040	7,172
	23,344	39,881
Balance ...	3,23,981	2,91,265

* The difference between this figure and the balance shown as outstanding at the end of last year is due to rectification made in communication with the Accountant General.

12. The average payment for the year under report is 12·31 per cent., and the reduction of debt is 10 per cent. These percentages are double those shown for last year and may, I think, be considered satisfactory.

13. At the end of last year, 30 of the estates under management were indebted to Government. During the year under report the estate of Nágbhai Vesabhai of Dumáli was freed from debt, and that of Virabhai Sumrabhai of Awania took an advance of Rs. 245 from Government. Hence the number of estates now indebted to Government is still 30. Of these, 6 are no longer under the operation of Act VI of 1862.

14. The condition of Návda in the Dhandhuka Táluka, the only village held on Tálukdári tenure by the Kásbati, Latifkhan Sardarmahomed, continues to be very unsatisfactory, and I have heard no more of the Bhal drainage project, from which I had hoped Návda would have received great benefit. The Limdi Darbár have appealed to the High Court against the decision in the case referred to in paragraph 15 of my last year's report; but the appeal has not yet been decided.

15. The balance of debt against the Makhiav estate owing to Government amounts to the very considerable sum of Rs. 38,731-3-9, and the condition of the estate is not satisfactory. During the year under report Rs. 3,100 were paid towards liquidation of the debt.

16. The estate of Khámbha in Gogha has again been given in farm, and during the year the sum of Rs. 1,687 has been paid in liquidation of debt. As the present arrangement is working satisfactorily the advance sanctioned for this estate has not yet been drawn.

17. The distribution of the profits of Rudátal Sinaj, Jethipura and Dábhsar between the creditors of those estates, referred to in paragraph 20 of my last year's report, was carried out early this year. These estates continue to progress fairly.

Encumbered Estates in Kaira.

18. The number of estates managed under Act XXI of 1881 at the beginning of the year was 43. During the year under report the estate of Vakhatsing Kabhai of Sálol paid off its debt and was released from the operation of the Act. Forty-two estates, therefore, remain under management. The estate released is free from any encumbrance.

19. No advance was taken from the Government Treasury during the year under report.

20. The financial position of each of the 43 estates is shown in Appendix II. An abstract of this statement is contained in Appendix IV, from which it will be seen that Rs. 375 were paid to private creditors and Rs. 27,219 to Government, and that a sum of Rs. 1,81,208 remains to be paid, of which Rs. 6,304 are due to private creditors and Rs. 1,74,904 to Government.

21. The payments made on account of debt settlement during the year under report and those made in 1890-91 are shown in the following table :—

	1890-91.	1891-92.
	Rs.	Rs.
Total debt outstanding at commencement of the year ...	2,21,880	1,99,515*
Added during the year	.....	.. ...
	2,21,880	1,99,515
Paid during the year—		
To reduction of debt	22,397	18,307
To interest on loans	10,351	9,287
	32,748	27,594
Balance ...	1,99,483	1,81,208

* The difference between this figure and the balance shown as outstanding at the end of last year is due to rectification made in communication with the Accountant General.

22. The average payment for the year under report is 13·83 per cent. of the amount due, and the percentage of reduction of debt is 9·17. These figures are lower than the corresponding ones for last year. This is due to the fact that last year so many as six estates were released from management. In the case of each of these the amount of reduction was 100 per cent., and consequently the average percentage for 1890-91 appeared larger.

23. The appeal of the Patidars of Dabhan is still pending in the High Court.

24. An application has been made during the year by Udesing Bharatsing, Thákor of Nápad, to be allowed to manage his own estate under the supervision of this office. As there is no legal objection to this, and as the Thákor is an educated and intelligent man, I have acceded to his request. He will pay yearly towards the liquidation of his debt a sum of Rs. 2,000 calculated on the average receipts of past years, and will retain any surplus for his own maintenance. His management will be permitted from year to year only.

Encumbered Estates in Broach.

25. The number of estates under management is the same as last year, *viz.*, 7. The financial position of each of them is shown in Appendix III. An abstract of this statement is contained in Appendix IV, from which it will be seen that during the year under report Rs. 3,534 were paid to private creditors, and Rs. 8,905 to Government, and that a total sum of Rs. 64,425 remains to be paid, of which Rs. 30,616 are due to private creditors and Rs. 33,809 to Government.

26. The payments made on account of debt settlement during the year compare with those of the previous year as follows :—

	1890-91.	1891-92.
Total debt outstanding at commencement of the year ...	88,525	74,876*
Added during the year ...	...	...
	88,525	74,876
Paid during the year—		
To reduction of debt ...	13,648	10,451
To interest on loans ...	2,439	1,988
	16,087	12,439
Balance ...	74,877	64,425

* The difference between this figure, and the balance shown as outstanding at the end of last year is due to rectification made in communication with the Accountant General.

27. It will be seen that the average percentage of payment is 16·6 and that of reduction of debt is 13·95. Both these percentages are lower than the corresponding ones for last year. This is due to the fact that smaller sums were paid by the Sárod, Jainadra and Mangnad estates.

28. The Sárod estate was at the beginning of 1891-92 indebted to Government to the amount of Rs. 17,520. This debt is being liquidated by annual payments of about Rs. 8,000. During the year under report, certain creditors of the Thákor, who had lent him money, amounting to over Rs. 20,000, at the time of his dispute with his father for the Gádi, began to press for repayment. In order to save the estate the expense of litigation, a scheme has been prepared, and is now under the consideration of the Commissioner, Northern Division, whereby a yearly payment of Rs. 4,000 is to be made to the creditors. If this scheme be approved, the amount available for liquidation of the debt to Government will be reduced; but as interest is paid on the amount advanced, this is not a matter of any importance. Pending orders on this scheme, only Rs. 4,000 have this year been paid to Government as against Rs. 8,000 in 1890-91.

29. The creditors of the Mangnad estate are very numerous, and payments to them are made biennially when sufficient money has accumulated. This year only Rs. 717 were paid to mortgagees as against Rs. 1,677 paid to other creditors in 1890-91. There is now a balance of more than Rs. 1,900, which will be distributed amongst the creditors at an early date.

30. The balance outstanding against Jainadra, at the beginning of the year, was only Rs. 47. In connection with this Rs. 5 have been paid as interest during the year, the greater part of the surplus income being devoted to the repayment of the loan of Rs. 1,500 alluded to in the 45th paragraph of my last year's report. In 1890-91 this estate repaid Rs. 1,400 to Government.

31. All the estates in Broach are making fair progress towards the liquidation of their debts. Those of Sigám and Khushalsingji of Jhánor have made this year considerably larger payments than in 1890-91.

32. In my last year's report I mentioned that the Thákor of Sárod, and his eldest son, Bhagwansing, were not on good terms. I have now with regret to report the death of the said Bhagwansing, which took place last May, at the age of about 20. The Thákor's second son is a boy of about 16, and is now being educated at the Wadhwán Girássia School.

33. In the suit alluded to in para. 46 of my last year's report, the High Court have set aside the order of the F. P. Assistant Judge, and have remanded the case for trial on the merits.

34. During the year under report steps have been taken to drain certain water-logged portions of the Jainadra estate, and a channel has been excavated, which will, I hope, be beneficial to the land. The cost of the work was considerably less than that estimated. Attention will be paid to the result of this drainage. Up to the present time land bearing assessment of Rs. 71 per annum has been brought into cultivation as a consequence of the excavation of the channel. This should be considered satisfactory for the first year.

Minors.

35. There were 45 minors' estates under management at the close of the last year. During the year under report the estates of the four minors named in the margin were released on their owners attaining majority. Thirteen new estates came under management. The total number of minors' estates now under the control of this office is therefore 54. The thirteen new estates are those noted in the margin.

1. Nathuba Wallibhai of Gadhia.
2. Bhura Jasa of Nagarka.
3. Raesingji Jalamsing, and
4. Manabhai Wajesing of Jákhda.

Fedra.—Shivsing Ramabhai.
Vejalka.—Deva Rama.
Ránpur—
Bapubha Satbha.
Dadubha Satbha.
Vajesing Satbha.
Kharad—
Noghabhai Pathabhai.

Broach—
Kázi Nuruddin Ahmad Husen.
„ Sáhed Mahomed Hamad Husen.

36. Of the estates released from management those of Bhura Jasa and Nathubhai Wallibhai are in a satisfactory condition. The Jakhda minor's estate is still involved in debt to the amount of about Rs. 2,000, which is nearly four years' income.

37. Of the 13 estates brought under management during the year, that of Alambhai Jambhai of Thori Thamba in Viramgám is the most important. It has an income of about Rs. 2,400, and debts to the amount of Rs. 8,000. The minor's mother and uncle have appealed to the High Court against the District Judge's order, granting guardianship of the minor's property to the Collector.

Another important estate is that of the Kazi of Broach. The Collector has obtained a certificate of guardianship of the property, which is worth Rs. 3,000 per annum; but which is heavily encumbered.

38. The condition of the estates of the minor Thákors of Jhánor and Mátar in the Broach District continues to be satisfactory. The appeal in the suit relating to the genuineness of the Mátar minor is still pending. The application of the Jhánor minor's grandmother to be allowed to bring a suit *in forma pauperis* against the Collector as administrator of the estate for a sum which she claims as maintenance has been granted, not rejected as was stated by mistake in my last year's report. The suit has not yet been heard.

39. Other estates in a prosperous condition are those of Rojka, Bapumia of Viramgam, Himatsing of Bhankoda and the Desais of Nariad. All these have a considerable surplus balance. During the year under report I have been paying special attention to the question of investing these balances; but up to the present time without success. The subject is one on which I had the honour to submit a report to Government in compliance with Government Resolution No. 477, dated the 22nd January last. No orders have yet been issued on this report. I am hopeful that if Government are pleased to approve of my proposal for investing surplus balances in mortgages on Tálukdári estates, those estates which advance the money may be benefited considerably without any risk.

40. Appendix V shows that, taking together all the minors' estates under the charge of this office, the total realizations during the year under report amounted to Rs. 97,729 as against Rs. 94,290 in 1890-91. Including the balances in hand at the commencement of the years, the figures are Rs. 2,45,691 and Rs. 2,18,245. The opening balance in 1891-92 was larger by some Rs. 27,000, than that of the year 1890-91. Out of the year's revenue, Rs. 58,988 were expended on Government *jama*, maintenance and other charges, while Rs. 1,86,703 were paid to creditors or carried over as savings. The total amount invested in Government securities is Rs. 89,000. The cash balance in hand at the close of the year is Rs. 85,693, and the invested balance is Rs. 1,09,000, of which Rs. 20,000 only are invested in landed property.

41. During the year under report, Raesingji Bharatsingji, Thakor of Kerwada in Broach, died, leaving a minor son named Dulabawa, aged about 9. The Collector applied to the Court for a certificate of guardianship, but the Court declining to grant it to him has constituted the minor's mother guardian of both person and property. Owing to the importance of the estate concerned, which is worth about Rs. 40,000 per annum, and considering that a purdah lady is not a fit manager for such a property, Government have been pleased to sanction an appeal against the Court's order.

42. The estate of a minor, Ramsingji Khumansingji of Jhánor, has been under the management of this office since 1888-89, when it was released from the operation of the Encumbered Estates Act, pending the decision of the Broach Court as to the guardianship of the minor which had been applied for by the Collector. His application was opposed by the mother, and finally rejected by the Court, on the ground that, as Government had already issued orders prejudicing the case of the minor in a question now the subject of a suit connected with a Toda Giras *hak*, the Collector was not the proper person to be guardian of the minor's property. The mother has since made an application to me to manage the estate under section 28, Act VI of 1888; but as the Judge expressed himself in his order as being of opinion that the mother is quite capable of taking care of the estate, I have not thought it necessary to entertain the application, and, as desired by the Collector of Broach, the estate will now be handed over to the minor's mother on production of the certificate of guardianship.

43. For the year under report the income of the estate of the minor sons of the late Kazi of Broach was (including balance in hand) Rs. 3,260, and the expenditure amounted to Rs. 2,742. The estate, I regret to say, is very heavily encumbered. The application made by the minor's grandfather, for the continuance of the political pension received by the late Kazi, has been rejected.

ESTATES UNDER SECTIONS 320 AND 504, CIVIL PROCEDURE CODE.

44. The number of estates under management at the beginning of the year under report in accordance with the provisions of section 320 of the Civil Pro-

cedure Code was 176 as against 136 at the beginning of 1890-91. During the year 25 were released from attachment and 90 newly brought under management, leaving a total of 241 at the end of the year. Of these, only Bhankoda, Chaniár and Gangad call for any special remarks, and they are dealt with below.

45. There were 7 estates under management under section 504, Civil Procedure Code, at the end of 1890-91. No new estate came under management under this section during the year. Of the 7 estates, one in the Dhandhuka Táluka and one in Viramgam were released from attachment, and five, therefore, now remain under management. Of these, one is situated in the Borsad Táluka of the Kaira District, and the remaining four in the Viramgam and Dhandhuka Tálukas of Ahmedabad.

46. The Bhankoda and Chaniár estates are the two most important in the Choowal of Viramgam. In both there are many sharers, and both are very heavily involved in debt. The sharers are generally fighting amongst themselves and altogether I have very little hope of any substantial improvement in the condition of these estates being possible. During the year I have been making endeavours to settle some of the disputes. Should these prove successful some arrangement with creditors may, perhaps, become practicable.

47. The litigation in connection with the Gangad estate has made hardly any progress during the year under report, and I am afraid that it will be a very long time before the dispute as to the succession will be brought to an end. I have been giving special attention to the question of improving the financial condition of this estate by making a settlement with the creditors and paying them off with money raised at lower interest than that which the estate is now called on to provide. My proposals on the subject have been submitted to Government, and should they be pleased to approve of my suggestions I am in hopes that before long the condition of the Gangad estate will be very much improved, and that its debts will all be liquidated before it becomes necessary to restore it at its rightful owner. During the year under report several civil court decrees have been passed for the maintenance allowances of various members of the late Thákor's family. As a consequence of this the unsecured creditors will probably not receive anything from this year's surplus revenues—a state of affairs to which they are very much dissatisfied. The secured creditors have been paid Rs. 13,000 for the year 1891-92.

48. The work of breaking up the large survey numbers of the Gangad estate, which was alluded to in the 23rd paragraph of my last year's report, has been progressing slowly and is now almost complete, the lands of one village only remaining to be dealt with. I trust that the preparation for the substitution of the bigoti for the bhágbatái system may be taken in hand next travelling season, and the new system introduced before the year 1893-94. At my suggestion the Collector of Ahmedabad as administrator of the estate has proposed to Government to take over for management under section 28, Act VI of 1888, and paragraph 4, Government Resolution No. 4580, dated 27th June 1889, some 19,837 acres of waste land, and every effort will be made to bring as large a portion of this area as possible under cultivation. During the year under report some 100 acres of waste in Bhurkhi and Sial have been let on special terms to new cultivators, and it is hoped that in time a still larger area will be brought under cultivation. I am this year trying the experiment of raising bábuls in the waste lands of Bagodra and Sial. Should this prove successful the income of the estate could be very largely increased, as the area of the land available for plantation is of great extent.

49. It is a matter for regret that the very important boundary dispute between the Gangad village of Sial and the Limbdi village of Bávli has not yet been decided. I am not aware what reasons Mr. Beaman may have for delaying the settlement of this matter; but it appears to me that a dispute, the hearing of the arguments in which was concluded in May 1891, should certainly have been finally disposed of before August 1892. I believe the two Commissioners appointed with Mr. Beaman are unable to agree on a settlement; but are willing to sign any report which Mr. Beaman may make. The unsatisfactory nature of such a procedure is, I venture to think, obvious, and I trust that it may not be adopted, unless with the consent of both parties.

50. The suit connected with the Gangad estate, to which allusion was made in the 27th paragraph of last year's report, has been decided partly in favour of the plaintiff, Bai Majirajba, and partly in favour of the estate. The Court held that jivai lands which were not specially exempted by the grantor from liability to *jama* are so liable; but that when the deed of gift specially recited that there should be no liability for *jama*, the estate is bound to pay it and not the grantee. As this decision appears to be unassailable no appeal was preferred. The financial result to the estate will be a loss of Rs. 1,153 per annum. Other jivaidárs are threatening suits against the estate praying for similar relief, and their applications are being dealt with in the light of the judgment above referred to.

MISCELLANEOUS ESTATES.

51. There are 18 estates under this head, of which 9 are in Ahmedabad, 7 in Kaira and 2 in Broach. The reasons for their being under management are shown in Appendix VI. The total number last year was 15 not 13 as shown in the report. The estate of the Kazi of Broach has been removed from the miscellaneous head, and is now managed as a minor's estate. The four new estates taken over during the year are those of the minor son of Bawasaheb Kasbati of Dholka (no person having as yet been appointed guardian of his property), Sálol, Ahima and Warshang. The last three are managed under section 28, Act VI of 1888, the management in the case of Warshang being in continuation of that under the Encumbered Estates Act, and in anticipation of the receipt of Government sanction to management under section 28 of the Tálukdárs' Act.

52. The estate of Musamia of Shah Alam has remained under my nominal management during the year under report. It is not yet free from debt and as its owner has again made a special request that the management may be continued, I have consented to retain it. No appreciable extra work is entailed on my office by the supervision of this estate.

53. The year under report was the first complete year during which the Sánand and Koth estate was under the management of this office under section 26, Act VI of 1888. The circumstances which led to the attachment of this estate were set forth in full in my last Administration Report. The management has been conducted by Mr. Hathishing Raechand, the Deputy Manager, and has been in every way successful. The gross revenue of the estate has risen from Rs. 1,33,716 to Rs. 1,40,932, and the amount collected during the year was Rs. 1,41,705 (including arrears of previous years), as against Rs. 1,26,916 realized last year. The collections were made with but very little pressure. There seems to be every probability that, with a continuance of careful management, the income of the estate will go on increasing from year to year for some time to come, and it is clear that for a long period it has been very much mismanaged, and its resources not properly made use of by those in charge. The expenditure of the estate amounted in all to Rs. 1,17,627, which sum includes the *jama*, establishment charges, Thákor's allowance (at Rs. 1,400 per mensem), and a sum of Rs. 20,500, which was handed over to the Thákor during the year for the liquidation of certain private debts contracted while he was living away from his mother and guardian. A sum of Rs. 3,686 was expended on works of utility, which will prove remunerative to the estate. Including the opening balance of Rs. 21,838 there is now a surplus balance of Rs. 45,916, the remainder of which after subtracting the sum, which must be kept in hand for expenses of management during the early months of the current year, will be handed over to the Thákor under section 29 (3), Act VI of 1888. Efforts will be made to prevent this money being wasted, and I have reason to believe that the Thákor will consent to have it utilized in payment of certain debts owing by him. I have the honour to submit herewith the detailed report on the administration of the estate made by the Deputy Manager, together with my remarks on it and those of the Collector of Ahmedabad. From these papers it will, I trust, be evident that the estate has even already benefited very considerably by being brought under Government management. Credit is due to Mr. Hathishing Raechand for the success which has attended his careful performance of the duties entrusted to him.

54. I regret that I have nothing satisfactory to report as regards the Thákor of Koth personally. I have seen very little of him during the year and

what I have heard has not been such as to lead me to believe that he is in any way improving in his conduct, or fitting himself to take charge of his important property. He shows no interest in the details of adminstration, and it is only with difficulty and after considerable delays that he can be got to attend to references made from this office or that of the Deputy Manager. So far as I can ascertain, the debts claimed against the estste amount to about a lákh of rupees. This is not a very large sum, and it may possibly be lessened after enquiry in the Civil Courts. With care the estate could be freed from all debt in four or five years.

55. In accordance with Government Resolution No. 3393 of 23rd June 1892, (Judicial Department), the extra police force assigned to the Koth estate in 1863 has now been withdrawn, there being no longer any need for it. By its withdrawal the sum of Rs. 2,167 per annum will be saved to the estate.

56. The Chandana estate in the Mátar Táluka continues in a very unsatisfactory condition. There is no doubt that the resources of the village are not what they were some years ago; but I cannot help being of opinion that the present Kasbatis do not make the most of their property. The amount paid in liquidation of the debt to Government during the year under report was Rs. 300 as against Rs. 200 in 1890-91. The balance of debt now outstanding is Rs. 2,066-7-3. In order to avoid forfeiture of the estate to Government this amount must be liquidated before September 1893.

57. The decree against the Dharoda estate could not be satisfied during the year under report, as the surplus income had to be devoted to payment of the arrears of the debtors' maintenance allowances.

58. No steps appear to have been taken during the year to bring about a settlement of the dispute between the sharers of the Chasiána estate, which has been attached under section 26, Act VI of 1888. All attempts at settlement made by this office in previous years having failed, the disputants must now be left to themselves. The balance in hand amounts to Rs. 43,000 in Government securities, and Rs. 7,164 in cash.

59. The estate of Ramsingji Khumansingji of Jhánor has been under the management of this office for some time, pending the result of the proceedings taken by the Collector to obtain a certificate of guardianship. The Collector's application having been rejected, the estate will now be handed over to the minor's mother. It has an income of Rs. 4,500 per annum and debts amounting to Rs. 2,000.

60. The estate of the minor son of the late Kasbati Bawasaheb of Dholka is in a fairly prosperous condition. Its income is about Rs. 9,000 per annum and the debts against it amount to Rs. 6,000.

61. The circumstances under which the Dehwán estate was brought under management were related in full in my last year's report. The revenue enquiry held by the Mámlatdár to ascertain which of the two rival claimants was entitled to have his name entered in the Government records resulted in favour of Meramansingji, on whose behalf and at whose request the first attachment had been placed on the estate under section 28, Act VI of 1888. This decision was followed in February last by a decree of the Civil Court in favour of the same person, and as this has not been appealed against, Meramansingji must be considered to have proved his title to the *Gádi* of Dehwán. The income of his estate during the year under report was Rs. 13,307 and there was a balance in hand of Rs. 79, making a total of Rs. 13,386. Of this sum Rs. 12,936, were expended during the year, nearly Rs. 4,000 going to creditors of the estate.

62. The affairs of the Thakor of Gamph, whose estate is not under my management, are, I fear, in a very involved condition. He has a debt of some 2¼ lákhs, and there are encumbrances on his estate. The young Thákor, for whom I am procuring a tutor from the Educational Department, shows at present every desire to get things straight and has already brought about a large reduction in the expenses of the Darbár establishment. He has recently been consulting me about a loan which he proposes to raise at low interest for the

repayment of some of his debts, on which a heavy rate is charged, and I have hopes of being able to assist him. During my tour I camped at Gamph for a few days, and was then able to make personal enquiries on the spot, and to examine the condition of the Darbár buildings, &c.

63. I regret to have to report the death last December of Hayatkhan, the only son of Bibi Badibibi, the daughter of the late Shifkhán Hayatkhanji, Kasbati of Dholka. He was the last male member of his family, and arrangements for his marriage were being made at the time when his death occurred. In their Resolution No. 5170, dated the 23rd June 1892, Government have been pleased to sanction a grant of Rs. 1,500 towards the funeral expenses, and to state that no further pecuniary indulgence will be granted to the Bibi, who was last year given assistance in repairing her ancestral house at Dholka. During my tour I visited the buildings which had undergone repair, and satisfied myself that the work had been carried out properly.

64. Bapumia Shermia's lease for 11 khálsa villages of the Dholka Táluka was executed in November last, and Government have been pleased to decide in regard to it that no stamp is necessary, as such a lease is exempted from stamp duty under the provisions of Act I of 1879. As Bapumia's estate is in no way under my supervision, I am not in a position to give any information as to its condition. The term of the new lease will expire in 1917-18.

65. The question of the restoration of their village to the Mulgametis of Khámbhda by the Thákor of Limbdi, alluded to in the 31st para. of my last year's report, was submitted for orders to Government, who, after taking the opinion of the Legal Remembrancer, were pleased to decide in their Resolution No. 7942, dated 23rd November 1891, that there should be no interference in the matter on the part of Government.

General Revenue Administration of Tálukdari villages in Ahmedabad.

66. There are 357 Tálukdári villages in Ahmedabad under the revenue charge of this office, and their *jama*, inclusive of the Local Fund cess, amounts to Rs. 3,70,496-14-11. The increase in the number of villages as compared with that shown last year is due to the addition of Aniáli Káthi. The decrease in jama and Local Fund cess, the amount last year being Rs. 3,79,867, is explained below.

Decrease.

Rs.	a.	p.	
8,300	0	0	On account of the diminution in the amount levied as Local Fund cess from the Thukor of Limbdi.
76	3	6	On account of the Local Fund cess on alienated land in Limbdi villages.
93	12	0	On account of Local Fund cess in Akru.
1,652	13	0	On account of *jama* of Akru.

Increase.

752	9	10	On account of the *jama* and Local Fund cess of Aniáli Káthi.
5	0	0	By rectification of error in last year's figures for the Gogha Táluka.

Net decrease Rs. 9,370-2-3.

67. After lengthy proceedings in the High Court it was decided during the year under report that the village of Aniáli Káthi, which had been purchased by a Kunbi at a Court sale, had been rongly attached and forfeited to Government for arrears of land revenue, and the village has now been restored to its owner on its previous Tálukdári tenure.

68. Owing to another decision of the High Court, the whole village of Akru is now considered to be a part of Limdi's estate, for which he pays fixed *jama* and hence we are precluded from collecting their share of the *jama* from the Mulgametis, who are in possession of one-half of the village.

69. The question of the amount of Local Fund cess to be paid by the Limbdi Darbár has been finally settled by the orders of the Secretary of State, who on appeal from Limbdi has overruled the decision of the Bombay Government. Instead of the Rs. 9,000 which Government had fixed as the proper contribution, the sum of Rs. 700 only, as before, is now ordered to be levied. This sum includes the cess of half the village of Akru, which had hitherto been paid by the Mul Gameties, who own that half, in addition to the amount paid by Limbdi.

70. During the year under report all the *jama* due has been collected, with the exception of Rs. 1,024 in Sánand and Rs. 4,620-13-5 in Dhandhuka. The outstanding balance in Sánand is on account of the *jama* of Hirápur, which is paid by the Thákor of Kuvár in instalments, under the orders of Government. Of the Dhandhuka arrears Rs. 3,805-15-5 are on account of the *jama* of Návda, and will as usual be written off. Steps are being taken to recover the remaining sum of Rs. 814-14-0.

71. The net income of Návda for 1890-91 was Rs. 4,991-2-8 which sum fell short of the *jama* for the year by Rs. 2,640-0-3. This has been written off by the Commissioner, N. D. For the year under report the gross revenue was Rs. 4,452 and after expenses of management have been deducted the balance will fall short of the *jama* by about Rs. 3,800 which will have to be remitted. The Bhal drainage project, from which I had hoped great things for Návda, has apparently been shelved for the present.

72. The following table shows the collection and expenditure of the Local Fund in Tâlukdári villages of Ahmedabad in the year under report :—

Name of Táluka.	Amount of Local Fund collected.	Amount of Local Fund expended.		
		Object.	Rupees.	Total Rs.
	Rs.			
Dholka	6,338 ...	Contribution towards buildiug school-houses	550	
		Repairs to school-houses ...	565	
		Do. to dharmshálas ...	93	
		Building a well	83	
		Repairs to wells	50	
				1,341
Dhandhuka ...	12,042 ...	Contribution towards building school-houses	499	
		Repairs to schools	1,083	
		Do. to dharmshálas ...	93	
		Do. to tanks	7,598	
		Do. to wells	35	
				9,308
Viramgám ...	2,710 ...	Contribution towards building school-houses	50	
		Repairs to school-houses ...	124	
		Do. to dharmshálas ...	18	
		Do. to tanks	699	
		Building wells and troughs ...	176	
				1,067
Sánand	3,636 ...	Repairs to school-houses ...	67	
		Do. to dharmshálas ...	28	
		Building wells	720	
		Repairs to wells	724	
				1,539
Gogha	1,752 ...	Repairs to schools	45	
		Do. to dharmshálas ...	112	
		Building wells	296	
		Repairs to wells	243	
				696
	26,478 ...	Total ...	...	13,951

73. The collection and expenditure as shown above compare as follows with those of the previous two years :—

Year.	Amount collected from the villages.	Amount expended in the villages.	Percentage.
	Rs.	Rs.	
1889-90	26,604	7,614	29
1890-91	34,903	5,619	16
1891-92	26,478	13,951	52·6

The causes of decrease in receipts have been explained in paragraphs 66-69 above.

74. The following table shows the collection and expenditure of the Local Fund in the Tálukdári villages in Kaira :—

Name of Táluka.	Amount of Local Fund collected.	Account of Local Fund expended.		
		Object.	Rupees.	Total Rupees.
	Rs.			
Thásra	959	.....	...	...
Borsad	2,443	Repairs to roads	35	
		Do. to Kotar's water-courses.	76	
		Watering charges	75	
		Repairs to wells	253	
		Do. to schools	22	
				461
Mátar	1,562	Repairs to dharmsháls ...	202	
		Do. to roads	18	
		Deepening tanks	191	
		Building wells	207	
		Repairs to wells	386	
				1,004
A'nand	1,579	.....	...	
Kapadvanj ...	217	Building wells	409	
				409
	6,760			1,874

75. The collection and expenditure as shown above compare as follows :—

Year.	Amount collected from the villages.	Amount expended in the villages.	Percentages.
1889-90	5,824	591	10·2
1890-91	5,824	2,898	49
1891-92	6,760	1,874	27·7

The increase shown in the amounts collected is due to the fact that last year the figures for certain villages which ought to have been included were omitted.

76. From the above figures it will be seen that the amount spent in the Tálukdári villages of Ahmedabad was very considerably in excess of the corresponding amount last year. In Kaira the amount expended was very much less than in 1890-91. The largest items of expenditure in Ahmedabad are repairs to schools and tanks. No large sum was expended on any one work in Kaira. Under the revision settlement the Tálukdári contribution to Local Fund will be considerably increased, and I trust that in the future a larger share of the Local Board's revenues will be spent in Tálukdári villages.

77. The present arrangements for meeting the expenses of the boundary-mark inspecting establishment and the cost of repairing boundary-marks in the

Ahmedabad District appear to me to be unsatisfactory, and I have had the honour to submit a report on the subject to the Commissioner, Northern Division. Orders on this report are now awaited. The present system was introduced in 1863 and has not been modified since.

78. Appendix VIII gives a list of the Tálukdári estates which are under management for the collection of *jama*.

Education of Minors.

79. The young Thákor of Utelia continues to make satisfactory progress in his studies, and is one of the most promising boys under my charge. The number of boys attending the Wadhwán Girassia School is eleven, the same as last year, one old boy having left the school during the year and one new one being entered. The boy who left school is Jitsingji Bhimsingji of Sigam. The boy newly sent to Wadhwán is Kishordas, the elder son of the late Desai of Nariád. All the boys were well reported on this year, except the Thákors of Sarod and Jhánor, who have been warned by me to behave better in future.

80. During the year under report, I have paid special attention to the education of minors attending village schools. The Mámlatdárs have been instructed to submit half-yearly reports showing the schools at which the minors in their tálukas are being educated, and explaining the cause in cases where no school is attended. In one or two cases, I have procured for minors, whose estates are attached under Civil Court decrees, a special allowance to enable them to meet their school expenses. It is hoped that when the arrangements for the Jubilee Institute are complete a considerable number of Tálukdárs' sons will come to Ahmedabad for education.

Revision Survey and Settlement.

81. During the year under report, the appointment of Assistant Settlement Officer in charge Tálukdári Survey has been held by Mr. Holland. The revision survey of the Sánand Táluka was begun and finished during the season and that of the Viramgam Táluka taken in hand and almost completed. Certain partitioned villages in the Dhandhuka Taluka were dealt with also at the beginning of the season.

82. For the preparation of the Faisal Patraks of the Dholka Táluka, Government were pleased to sanction the entertainment of an extra temporary establishment in my office for two months. Their work was complete in last April, and after a tour in Dholka, during which the Tálukdárs were given an opportunity of seeing how their lands had been dealt with by the Survey Department, I had the honour to submit my proposals for the revision of the Dholka *jamas* in my No. 466, dated 13th June. Orders are now awaited on this report.

83. Mr Holland's proposals on the subject of the maximum survey rates to be imposed in Gogha were delayed, in consequence of the late publication of the report on the revision survey of khálsa villages in that táluka. They have now been submitted for the consideration of Government, with my No. 608, dated the 4th August 1892, and I trust that early orders may be issued in regard to them.

84. Government in their Resolution No. 4387, dated the 21st May 1892, have been pleased to decide that no *jama karars* shall be issued in connection with the revised *jama* settlement. I am not as yet able to judge how the Tálukdárs will view these orders; but there is no doubt that the new arrangement will remove any misconception which may have existed as to the legal nature of the *karars* given at the time of the original settlement. The most complicated question, which has arisen in connection with the revision of *jama*, is that of alienations. As explained in the report containing my proposals for the Dholka Taluka, I have recognized as alienated only those lands which were entered as such by Mr. Peile in his register, and the area of such lands has not been taken into account in calculating that which is liable to *jama*. Land in the possession and enjoyment of persons other than the Tálukdár, but not recognized as alienated by Mr. Peile, has been treated as Darbári.

85. The concession offered by Government in their Resolution No. 4580, in connection with waste land handed over for management in accordance with

the provisions of section 28, Act VI of 1888, has not been availed of by any of the Dholka Tálukdárs. As stated above, however, the Collector of Ahmedabad as administrator of the Gangad estate proposes to hand over 19,837 acres of waste in that estate for management by the Tálukdári Settlement Officer.

Execution of Decrees.

86. There were 592 decrees under execution under section 320, Civil Procedure Code, at the end of 1890-91. The number received for execution during the year under report was 151 as against 149, 126 and 161 in the three preceding years, respectively. The total number under execution during 1891-92 was, therefore, 743. This number necessarily increases every year as the process of execution by management of the estate is very slow, and the new decrees received in the office annually are much more numerous than the old ones which have been satisfied during the year.

87. In reply to notices issued under section 322, Civil Procedure Code, 54 decrees were received. The total number dealt with by this office during the year was therefore 797.

88. Of the estates to which these decrees relate—

500 were under management;
83 were under process of sale;
116 were returned to Court;
98 were under enquiry.

89. Of the 116 returned to Court—

27 were satisfied by compromise;

21 were satisfied by paying the amount from the defendant's property under management;

57 were returned to Court as Government declined to sanction sale;

1 was satisfied by sale of the defendant's property which consisted of standing crops in a field;

2 were returned, the attachment having been removed by the Court.

8 were returned to the Court without execution as they were received after action had been taken under section 322 and for other reasons.

90. The following table shows the manner in which the decrees received in each year and those brought over from the previous years were disposed of during the last three years:—

	1889-90.		1890-91.		1891-92.	
	Number of decrees.	Amount.	Number of decrees.	Amount.	Number of decrees.	Amount.
		Rs.		Rs.		Rs.
Returned after disposal by compromise, &c.	118	29,967	62	3,9884	116	1,30,320
Under payment by instalments from revenues of estates taken under management	282	3,27,710	354	3,86,234	500	4,63,481
Under process of sale	53	74,068	109	1,92,655	83	1,64,838
Under enquiry	125	1,17,212	129	1,13,705	98	26,135
	578	5,48,957	654	7,32,378	797	7,84,774
Amount paid to creditors direct or through the Civil Courts ...	...	35,327	...	63,818	...	38,927

91. The reason why last year's payments to the Civil Court were so large is explained in paragraph. 92 of my report for 1890-91. All the decrees for 1891-92 above shown relate to property in the Ahmedabad District alone.

92. The amount realized from the management of the estates under decrees and sent to the Civil Courts in the year under report was Rs. 15,978. The sale of some movable property realized the sum of Rs. 6-4-0. No estate or portion of one was sold in execution of a decree. The number of decrees disposed of by compromise was considerably larger than the corresponding number last year.

93. In 57 cases Government have declined to accord the sanction required by section 31 (2) of the Tálukdárs' Act, 1888, for the sale of an estate or portion of an estate in execution of the decrees of Civil Courts, and in no case was this sanction given. During the year, however, a decision has been recorded by the High Court, which I have already had the honour to submit for the consideration of Government, and which is of very great importance in reference to certain decrees now under execution. The High Court have ruled that in cases where the decree was passed before Act VI of 1888 became law, the sanction of Government is not necessary for the alienation of the property specified in the decree. In consequence of this decision several applications for the sale of land forming part of Tálukdári estates have been presented to me. I am awaiting the orders of Government as to how they should be dealt with.

94. Another point of importance in connection with the effect of section 31 (2) of the Tálukdárs' Act on the execution of decrees was decided by Government in their Resolution No. 4020, dated the 9th May 1892. The question turned on the interpretation of the expression "Tálukdár's estate" in that section. Government have been pleased to order that the term should be construed strictly, and should be held to apply to such property only as is held on Tálukdári tenure, and should not be treated as including other property held by a Tálukdár in addition to the estate for which he pays *jama*.

Partition.

95. Six applications for partition made under section 11 of the Tálukdárs' Act, 1888, were pending at the beginning of the year under report. Seventeen fresh applications were received during the year as against 15 in 1890-91, thus making a total of 23 cases to be disposed of. In seven of these cases an order for partition was made under section 15 of the Act, and in six others the Tálukdari Settlement Officer declined to grant the application until the question in dispute had been determined by a competent Court. One application was rejected on account of the non-appearance of the applicant after due service of notice. One was refused, as the applicant was only a mortgagee, and as such not entitled to partition. Another was rejected because the applicant was a person who at a Court sale had purchased only specified lands and not shares in an estate, one was refused because the applicant who was the son of a purchaser at a Court sale would not produce a certificate of heirship. Six cases now remain under enquiry.

96. In three of the cases disposed of appeals were made to the District Judge. In one of these the decision of the Tálukdári Settlement Officer was confirmed and the results of the remaining two are not yet known.

Suits.

97. Twenty-seven original suits and appeals (including those suits decided last year but carried on by appeals preferred in them) were pending at the beginning of the year under report. Ten new suits and appeals were added during the year, making a total of 37. Of these, nine have been finally decided by the Courts, and one has been compromised under the orders contained in Government Resolution No. 5793, dated 15th July 1892. Details are given in Appendix XI.

98. The most important case decided during the year is, perhaps, that in which Jiwandás Ánandji, the purchaser at a Court sale of a share in the estate of Ukharla and Trimbak, was defeated in his attempt to evade payment of *jama* on alienated lands falling within the share purchased by him. The High Court confirming the lower Court's decree found him liable for the *jama* of the whole share, whether all the land comprised in it was or was not in his possession and enjoyment.

99. The appeal in the case connected with the levy of local fund cess from certain tenants of the Gangad estate, alluded to in the 107th paragraph of my last year's report, is still pending in the High Court.

100. Of the nine cases finally decided, three are wholly in favour of this department and three against it. The remaining three were nominally only partly in our favour, but as a matter of fact they were wholly so, because of the plaintiff failing to pay certain moneys and take possession of certain lands within the time allowed by the Court for doing so.

101. The following figures show the cost of the litigation incurred by the estates during the year under report:—

	Rs.	a.	p.
Total expenditure incurred by the estates ...	290	2	0
Recovered from plaintiffs	43	8	10
Net cost to Estates ...	246	9	2

102. In addition to the suits mentioned above, this office is concerned if two others of importance. One is the appeal in the High Court filed on behal of the Secretary of State against the Thákor of Sánand and Koth, in the matter of the wánta in the Sánand village site. The Tálukdári Settlement Officer, as manager of the estate, has been joined as a co-respondent. The other suit is that brought by one Maganlál Bháishanker against the Gangad estate for Rs. 46,000. The Collector of Ahmedabad, as administrator of the estate, is now defendant in the suit. During the year this case has been remanded by the High Court to the District Court for trial on the merits.

Financial Review.

103. The following abstract gives at one view the financial results of the management of the estates for the year under report:—

	Number of Estates.	Gross Revenue including previous year's outstanding Balances.	Total Revenue realized, including past year's Balance in hand.	Charges of all Kinds.						Paid to Creditors.	Balance in hand at the close of the year.	Outstanding balances written off.	Outstanding balances at the close of the year.
				Government Dues.	Collection, &c., Charges in the Tálukas.	Tálukdári Settlement Officer and Establishment Charges.	Maintenance, Education and other Expenses of Tálukdárs.	Miscellaneous.	Total.				
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Estates under Encumbered Estates Acts ...	117	2,42,897	2,92,784	55,631	11,821	5,762	49,510	14,492	1,37,216	81,437	74,131	10,168	27,144
All other Estates under management	469	5,41,301	7,25,232	1,44,589	25,811	9,704	67,516	32,275	2,79,301	65,576	3,79,761	28,916	76,132
Total ...	586	7,84,198	10,18,016	2,00,220	37,632	15,466	1,17,026	46,767	4,16,517	1,47,013	4,53,892	39,084	1,03,276

The details of this abstract will be found in Appendix XII.

104. The percentages of collection, remission and outstanding balances to the total realizable revenue of the estates under management for the year under report, and the previous two years, are shown in the following table:—

	Years.	Gross Revenue, including Arrears.	Amount collected during the year.	Amount remitted.	Amount outstanding.	Percentage of Collection.	Percentage of remission.	Percentage of outstanding Balances.
		Rs.	Rs.	Rs.	Rs.			
Ahmedabad	1889-90	3,08,815	2,63,355	11,193	34,267	85¼	3½	11¼
	1890-91	4,02,776	3,39,345	4,427	59,004	84·2	1	14·6
	1891-92	4,90,746	4,20,726	20,407	49,613	85·7	4·1	10·1
Kaira ...	1889-90	1,03,606	1,00,029	89	3,488	96½	...	3½
	1890-91	1,40,420	1,28,804	1,051	10,565	91·7	0·74	7·5
	1891-92	1,46,263	1,14,141	13,172	18,950	78	9	12·9
Broach ...	1889-90	1,91,866	1,68,206	421	23,239	87½	¼	12¼
	1890-91	1,42,593	1,10,355	3,834	28,404	77·39	2·6	19·9
	1891-92	1,47,189	1,06,971	5,505	34,713	72·6	3·7	23·5
Total ...	1889-90	6,04,287	5,31,590	11,703	60,994	88	2	10
	1890-91	6,85,789	5,78,504	9,312	97,973	84·36	1·3	14·2
	1891-92	7,84,198	6,41,838	39,084	1,03,276	81·84	4·9	13·1

105. From the above figures it will be seen that the percentage of collections this year is higher, and that of outstanding balances lower than the corresponding ones of last year in Ahmedábad, and that the reverse is the case in Kaira and Broach.

106. As regards Kaira the outstandings are chiefly on account of the Dehwan and Nariád estates. The amount outstanding in Dehwan is Rs. 8,030. This balance is due in great part to the fact that the Thákor's younger brother collected a large sum from the tenants of the estate before it came under management. Enquiries are now being made as to the probability of the money being recovered. The outstanding balance of the Nariád estate is Rs. 9,830. Of this, Rs. 204, arrears of the current year, have already been recovered. The remaining sum is due for years previous to the estate coming under management. The greater part of it has been found to be irrecoverable, and Rs. 8,574, after consultation with the trustees of the estate, have been ordered to be written off. The outstandings in other estates are insignificant and steps are being taken for their recovery.

107. The outstanding balance in the Broach District amounts to Rs. 34,713, of which Rs. 30,269 are due for previous years, and Rs. 4,444 for the year under report. Rs. 21,839 are due on account of money lent by the Jhanor and Sárod estates and are, therefore, not arrears of land revenue. They will be recovered gradually. Rs. 2,102 are due on account of various *haks* to which the Jhanor and Sárod and Broach Kázi's estates are entitled from Government and the Baroda State Government. This sum will be recovered in due course. The outstandings of the Mátar estate amount to Rs. 630, of which the greater part will have to be written off as irrecoverable. Certain sums outstanding in the Sárod and Janiádra estates are due to failure of cultivation during the year and will probably be recovered later. The balance of Rs. 3,827 in the Khandáli estate is due from the Thákors themselves.

108. In Ahmedabad the percentage of outstandings is 10·1 as against 14·6 in 1890-91. This is a distinct improvement and is due to the season of 1891-92 having been considerably more favourable than that of the previous year. The total balance is Rs. 49,613, of which Rs. 22,191 are on account of past years and Rs. 27,422 on account of the year under report. The amount outsanding in each táluka is as shown in the margin.

	Rs.
Sánand	13,393
Viramgám	7,173
Dholka	7,785
Dhandhuka ...	20,449
Parantij	461
Gogha	352

109. The outstanding balance in Sánand is almost entirely on account of the Koth estate. As pointed out above, however, the amount is not large in consideration of the revenues of the estate, and most of it will, doubtless, be recovered, or in the case of arrears of past years, written off. In Viramgám the estates with largest outstandings are those of Sinaj and Rudátal, which have not been very long under management. There are disputes in these estates as to the actual land cultivated by different tenants. Steps are being taken to recover the balances. In Dholka the largest amount outsanding is that due to the Gángad estate. Part of it will have to be written off, as the arrears are old and the tenants in some cases have died or left their village on account of poverty. In Parántij and Gogha the outstanding balances are small and call for no remark.

110. The heaviest balance is that outstanding in Dhandhuka, where the absence of late rain and the fall in the price of cotton had a serious effect on the payment of rents. In the case of a large number of etates, which are farmed by their owners, the amount due for the farm has not been paid owing to the total inability of the farmers to raise more money than was needed for the payment of the jama. For the current year most of these farms will not be given to the owners of the villages.

111. Owing to the succession of unfavourable seasons, remissions had to be granted in all three districts. In the Koth estate, after careful enquiry as to the likelihood of recovery, a sum of Rs. 6,234 has been written off during the year. A great part of this is only nominal, as it ought not to have been carried on in the accounts at all, as explained in the Koth report. In Gángad Rs. 1,844 were remitted for somewhat similar reasons. In the Nariád and Dehwan estates considerable sums were written off, it being found that they were irrecoverable. It seems to be the custom of land-owners, when managing their own estates, to carry on from year to year outstanding balances known to be irrecoverable.

This office proceeds on a different system, and when it is found that there is no hope of recovery, the sum outstanding is written off and no longer shown in the accounts. In Broach the sum of Rs. 4,071 entered as a remission is only apparently such. That amount was due as a cash debt to the late Thákor of Sigám, and with the approval of the Commissioner, N. D., the collection of it has now been entrusted to the Thákor's widow.

112. The following table shows the average percentage of expenses of management to realizable revenue and to actual collection of each district separately, and of all the three districts together for the year under report:—

Collectorate.		Tálukdári Settlement Office.	Local expenses of collection, &c.	Total average percentage.
Ahmedabád ...	On realizable revenue	1·8	5·0	6·8
	On actual collection	2·17	5·91	8·08
Kaira	On realizable revenue	2·0	4·33	6·33
	On actual collection	2·64	5·55	8·19
Broach	On realizable revenue	2·24	4·35	6·59
	On actual collection	3·09	5·98	9·07
Total average percentage	On realizable revenue	1·97	4·79	6·76
	On actual collection	2·40	5·86	8·26

Working of the Gujará't Ta'lukda'rs' Act VI of 1888.

113. The Gujarát Tálukdárs' Act, 1888, has now been in force a little more than three years, and I have the honour to state that it appears to me to be working smoothly. Circumstances which have come to my knowledge during my enquiries in connection with the revision of the *jama* of the estates in the Dholka Táluka lead me to fear that difficulties may arise when the preparation of the settlement register prescribed by section 5 is taken in hand. This, however, will not be just yet, and as the difficulties that I apprehend cannot be formulated until actually met with, there is no use attempting to deal with them beforehand. The provisions of the Act, which come most commonly before me, are those relating to partition and to the borrowing of money on the security of estates.

114. With reference to the remarks made by the Commissioner, N. D., in the 16th paragraph of his review of my last year's report, I have the honour to state that the interpretation which I put on the provisions of the Act, relating to partition, has since been upheld by the High Court, confirming the decree of the District Court. Amongst the grounds of appeal to the High Court were the following:—

> The bare denial of a co-sharer's right to partition is not enough to oust the Tálukdári Settlement Officer of his jurisdiction.
>
> It is the duty of the Tálukdári Settlement Officer to satisfy himself as to the existence of some real dispute about the applicant's title before he rejects the application.

Notwithstanding these contentions, the High Court confirmed Mr. Fulton's finding, which was to the effect that the existence of a dispute, however, groundless or vexatious, ousted the jurisdiction of the Tálukdári Settlement Officer, if neither of the other two conditions laid down in section 10 of the Act was fulfilled. This ruling has necessarily been followed by me during the year under report.

115. The most interesting of the partition cases, which came before me this year, are those in which the application was made not by a Tálukdár, owning a share in the estate, but by an alienee. I am not aware whether it was the intention of the legislature to entitle an alienee to demand partition under section 10 of the Act; but I am glad to be able to report that so far the attempts of the alienees in this direction have not been successful. In one case the applicant was a mortgagee in possession of a specified share of an estate. His claim,

however, had never been decreed by a Civil Court, and on this ground I was able to reject the application. In another the application was made by a person who had purchased at a Court-sale a certain share in two fields forming part of the share of a judgment-debtor. The claim for partition was disallowed by me on the ground that a share in certain specified survey numbers is not such a share in a Tálukdári estate as entitles the holder to sue for partition under section 10 of the Act. I have very little doubt that applications for partition made by mortgagees will become more and more numerous.

116. At the beginning of the year under report there were pending twenty-nine applications for permission to borrow money on the security of Tálukdári estates, the total amount to be borrowed being Rs. 88,115. During the year 50 fresh applications have been received, making a total of 79 for disposal. The total amount to which they relate is Rs. 4,34,706. In 30 cases, the required permission was given, and borrowing to the amount of Rs. 1,63,916 was sanctioned. The loans in these cases varied from Rs. 200 to Rs. 40,500. Twenty-seven applications were rejected and 22 are still under enquiry. The largest sums, for the borrowing of which sanction was given, are the following:—

Rs. 25,000 to Takhatsing Ràmsing of Kherda.
Rs. 20,000 to Madhavsing Jesang of the same estate.
Rs. 28,000 to Pátábhai Jaswatsing of Cher.
Rs. 17,025 to Kánáji Sagáji of Dadhána.
Rs. 40,500 to Bhojráji Atábhai of Rojka.

Madhavsing Jesang required his loan to meet the marriage expenses of his daughters. The object of raising the other loans was in each case to lower the rate of interest paid on old debts. These are the reasons for borrowing money in the great majority of cases.

117. In five out of the 30 cases, in which sanction was given during the year under report, the borrower has already received the money and has produced the cancelled bonds of the old debt for my inspection. The amount borrowed in these 5 cases is Rs. 39,665.

118. Last year permission was given for borrowing Rs. 2,39,509, but of this sum only Rs. 14,000 were actually taken by the Tálukdárs in that year. During the year under report sums sanctioned last year, amounting in all to Rs. 41,050, were taken by the borrowers, and the documents relating to the paid off debts produced before me. In addition to this amount, I believe, Rs. 95,000 sanctioned for the Bhimnáth estate and Rs. 10,000 for that of Subamia Bápusáheb have been received by the borrowers, though no formal intimation of the fact has reached this office. It thus appears that of the Rs. 2,39,509, for the borrowing of which sanction was given in 1890-91, Rs. 1,60,050 have actually been taken by the Tálukdárs, and that of the Rs. 1,63,196 sanctioned during the year under report, Rs. 39,665 have been taken up to date. Every precaution is observed in the matter of these transactions and the interests of the Tálukdárs are safeguarded as far as is possible.

119. The number of estates now under management under sections 26 and 28 of the Act is 8 as against 6 in 1890-91. The new estates are those of Ahima and Sálol in Kaira, which were taken over on the applications of the Thákors, which Government were pleased to sanction. Five other applications were received during the year, three of which were rejected, one of which is still under enquiry and the fifth of which has been sanctioned by Government within the last few days. Two of those rejected came from Tancha in Broach. The applicants' object in handing over their estates was to bring about a settlement of their debts; but, as it was found on enquiry that no satisfactory arrangement was possible, their applications were refused. The case of the third rejected application is alluded to in paragraph 42 above. It is, I think, evident that the Tálukdárs approve of the provisions of section 28 and regard them as specially useful in cases where the estates are encumbered, and the creditors are induced to come to terms, on the understanding that the debtors' property is to be brought under Government management.

120. No final orders have as yet been received in the matter of the Limbdi estate village police. The proposals made by the District Magistrate of Kaira for the re-organization of the police in certain Tálukdári villages of the A'nand and Borsad Tálukas were sanctioned by Government in their Resolution No. 5945,

dated 7th November 1891, and the arrangements for the recovery of the charges from the Thákors and Tálukdárs concerned in half-yearly instalments payable in advance received sanction in Government Resolution No. 1833, dated 2nd April 1892. The Thákors, whose expenditure on village police has been increased, by the orders above referred to, are very much dissatisfied, and have submitted to this office and to the District Magistrate applications, which have been replied to by pointing out that their objections which were heard before are urged at too late a stage for it to be possible to take them into consideration.

121. No Tálukdári estate was sold in execution of a decree. Alienations of portions of estates were, however, sanctioned under section 31 (2) of the Act in the four cases following:—

Jhinjhar.—Sale by Kalyansing Meghabhai of a plot of waste land to another Tálukdár of the same estate, in order to discharge part of his debts. (Government Resolution No. 7225, dated 20th October 1891.)

Dholera.—Sale by Noghabhai Khodabhai and others of a shop to a stationer to enable them to repair other buildings. (Government Resolution No. 7633 of 6th November 1891.)

Gorasu.—Deed of gift of alienated land by Kesarbhai Manabhai and others to the Swaminarayan Temple at Dholera in charity. (Government Resolution No. 610 of 27th January 1892.)

Juna Jália.—Sale by Adesing Ladhabhai of his one-twelvth share to his Bháyat to pay off debts and to save his other property. (Government Resolution No. 5017 of 16th June 1892.)

It will be seen that in two cases the purchaser was a Tálukádr of the same estate, in the third the property was a house, not land, and in the fourth the alienation was for charitable purposes. None of these transactions are, I venture to think, contrary to the spirit of the Act.

Resumé.

122. The following is a resumé of the operations of this Department during the year under report and the previous two years in all the districts under the several heads mentioned.

		1889-90.	1890-91.	1891-62.
1.	Estates under management	356	491	586
2.	Their total revenue	466,027	685,789	784,198
3.	Amount collected	531,590	578,504	641,838
4.	New estates brought under Act VI of 1862 ...	2	Nil.	Nil.
5.	Number of creditors' claims under Act VI of 1862 enquired into and awards made	1,016	35	Nil.
6.	Debt settlement schemes submitted	2	3	Nil.
7.	Amount of creditors' claims recorded ...	327,872	Nil.	Nil.
8.	Decrees received from the Civil Courts for execution	126	161	151
9.	Decrees inclusive of those brought over from previous years executed by compromise, sale, management, &c.	400	525	699
10.	Amount paid to private creditors	52,903	67,059	90,649
11.	Amount paid to Government	66,561	54,894	56,364
12.	Amount paid to Tálukdárs, Thákors, &c., for maintenance and other expenses	70,392	1,17,889	1,17,026
13.	Paid for Government *jama*	1,45,327	1,99,505	2,00,220
14.	Paid for expenses of collection, supervision, &c. ...	41,658	50,444	53,098

	To actual collection	8·92	7·85	8·26

Tálukdars' Jubilee Memorial Fund.

123. The amount of this fund in hand is Rs. 22,948-10-8, of which Rs. 19,055 are lying in the Bank of Bombay and Rs. 3,893-10-8 are in the Post Office Savings Bank at Ahmedabad. During the year under report Rs. 101 of the outstanding balance of the subscriptions was collected. It is doubtful whether any further sum will be realized.

124. It has now been definitely decided that the fund shall be utilized in maintaining in Ahmedabad an institution to be known as the Tálukdárs' Jubilee Memorial Institute, which will serve partly as an Utáro for Tálukdárs visiting Ahmedabad, and partly as residential quarters for Tálukdárs' sons who attend schools in that city. It is proposed to keep a master who will look after the boys and also perform the duties of Secretary to the Institute. The difficulty is to obtain a suitable house, as the means at the disposal of the Committee are not nearly sufficient to allow of a new building being erected. An application has been made to Government, asking them to allow the use of the Gáekwád's Haveli, at a rent of Rs. 45 or Rs. 50 a month; and if Government are pleased to accede to this request, a very suitable building will have been secured. The Gáekwáds' Haveli, with its open spaces and its breezy situation on the banks of the river, will be a very much more satisfactory place of residence for the boys being educated in Ahmedabad than would any house which could be found in the city itself. The Committee are considering the rules which will be introduced for the management of the Institute, and as soon as the building has been handed over to us a start will be made. The money which has hitherto been lying in the Bank of Bombay, part of the time without interest, is now to be invested in a mortgage on a Tálukdári estate, which will bring in 6 per cent. interest. The income of the Institute will, it is hoped, be about Rs. 1,200 per annum, in addition to the receipts in the shape of fees. The Institute will be managed by a Committee of six Tálukdárs with the Tálukdári Settlement Officer as *ex-officio* Chairman.

Establishment.

125. In connection with the preparation of the faisal patraks of the revision survey, a very considerable amount of extra work was thrown on my office, and for the purposes of this work Government, in their Resolution No. 407, dated the 28th January 1892, were pleased to sanction the entertainment of a special temporary establishment, consisting of four kárkúns and a supervisor, at a total cost of Rs. 90 per mensem. This establishment was employed for two months in the early part of 1892 preparing the faisal patraks of the Dholka Táluka, and was then discharged to be taken on again when the survey rates for the Gogha Táluka have been approved by Government.

126. In my report of last year I expressed a doubt as to the sufficiency of my then existing Decree establishment, which consisted of one kárkún only on Rs. 20 a month. The work connected with the execution of Civil Court decrees has so enormously increased of late years in this office that during the year under

report I had no difficulty in making out a good case for the increase of the establishment, which has to deal with it, and Government in their Resolution No. 1889, dated the 5th April 1892 were pleased to sanction the entertainment of a second kárkún on Rs. 15, and to allow of the first kárkún's pay being raised to Rs. 25 per mensem. Both these kárkúns are borne on the establishment of the Collector of Ahmedabad and are paid by the Judicial Department.

127. My office establishment have worked well during the year under report. The Head Clerk, Mr. Mulji Kalidas, is able and industrious, and I am thoroughly satisfied with the way in which he has performed his duties. The Shirastedár, Mr. Shivshankar Bechar, has received commendation so often for his complete knowledge of all the routine matters with which this office has to deal and for the industry with which he makes use of it, that I need only say here that during the year under report he has worked as usual.

I have the honour to be,
Sir,
Your most obedient Servant,
H. O. QUIN,
Acting Tálukdári Settlement Officer.

No. 13 of 1892.

To

H. O. QUIN, Esquire, C. S.,
Tálukdári Settlement Officer,
Gujarát.

Sánand, 5th July 1892.

Sir,

I have the honour to submit the following report of my administration of the Sánand and Koth estate for the year which will end on the 31st of this month

2. The estate is managed under section 26 of Act VI of 1888 under the orders contained in the Resolution of Government No. 9205, dated 23rd December 1890. It has been under management since 15th January 1891.

3. I have been in charge of the estate during the whole year under report. I have conducted my work with the assistance of the subordinates as per margin. Most of these men were in the service of the estate during the time of the late management. With the exception of a few talátis, all have performed their work tolerably well. The Upari Kárkún, Devkaran Adekaran, who has been in the service of the estate for a great number of years, has done his work satisfactorily.

1 Upari Kárkún.
3 Kárkúns.
1 Measurer.
26 Talátis.

4. The estate is composed of 23 villages and 26 wántas situated in the Sánand, Dholka and Daskroi Tálukas of the Ahmedabad Collectorate and the Mátar Táluka of Kaira. The details of these have been given in my last year's report, and there is no need to recapitulate them here. One village and one wánta are enjoyed in jivai by the mother of the Thákor, and one village is enjoyed by his wife.

5. The wántas in Daskroi and Mátar were, up to last year, managed in farm. But on my recommendation you have sanctioned their management directly by a tálati. They are, therefore, managed in the same manner as the other portion of the estate from the present year.

6. There are, therefore, 21 villages and 25 wántas under my management. The financial position of each of these is given in the accompanying Statement A. It will be seen that the gross revenue and collection of the year have been

Rs. 1,40,932 and Rs. 1,41,705 respectively, which compare with the previous year as follows :—

	Gross Revenue.	Collection.
	Rs.	Rs.
1890-91	1,33,716	1,26,916
1891-92	1,40,932	1,41,705

In the previous year the revenue was entered according to the amount shown in the year before our management. On enquiry it was found that many cultivators, who had either left the village or had died, were retained on the register, and the demand was entered on their names. This and some other unnecessary entry swelled the gross revenue by Rs. 4,151. On my recommendation you have ordered to strike off such revenue. This I have done during the year. For the purpose of comparison, the gross revenue of the past year should also be reduced by that sum, and it should be held to have been Rs. 1,29,565, while the current year's revenue is Rs. 1,40,932. This shows an increase of Rs. 11,367 in the revenue during the year under report. This increase is partly due to the large sums realized in the sale-proceeds of grass beers, but is greatly due to the increase of cultivation in several villages, especially those of the Sánand portion of the estate.

7. In the sum of Rs. 1,26,916 realized during 1890-91, Rs. 1,19,501 were on account of the revenue of that year, and in that realized in the current year *viz.*, Rs. 1,41,705, Rs. 1,35,214 have been on account of 1891-92. This shows an increase of Rs. 14,789 in the total collection, and Rs. 15,703 in the collection of the current year's revenue. Looking to the season, this result appears to me very satisfactory.

8. The gross revenue of the year is Rs. 1,40,932, out of which Rs. 1,35,214 have been realized, leaving an outstanding balance of Rs. 5,718. From this a sum of Rs. 1,461 has been written off as irrecoverable under your sanction. A greater portion of the remaining sum of Rs. 4,257 is recoverable; but, owing to the poverty and other causes, the cultivators are not able to pay at present.

9. There was a sum of Rs. 15,124 outstanding at the end of last year on account of the year 1890-91. I had made detailed enquiry at every village about these balances. The sums found as irrecoverable have been, under your sanction, written off. These for all villages amounted to Rs. 4,773. The sum of Rs. 4,048 was recovered in cash. Now there remained an outstanding balance of Rs. 6,303 on account of the past year.

10. I had also enquired into the outstanding balances of the time of the late management, and the detailed lists of almost all the villages have been submitted to you. As it was of Rupálibá's time, you have referred these lists to the Thákor for disposal. The Thákor has done nothing whatever on the subject as yet. I had made some special proposals for the disposal of the outstandings of the village of Wattaman. These proposals were agreed to by the Thákor, and you have referred the matter to me for execution. This will be carried out in due course. Of these old balances, a sum of Rs. 2,294 have been recovered during the year. It is necessary that early steps should be taken by the Thákor to dispose of these balances. Until that is done, some undue pressure which may lead to abuses is brought to bear on the wretched rayats by the village servants.

11. The outstanding balances enumerated in paragraphs 8 to 10 above would have been further reduced but for certain natural causes. In the Sánand portion the rice land, which depends for its crop solely on the rain water, had totally failed. The land which had the command of tank or bandh-water produced crop to the extent of 8 to 10 annas in the rupee, but that after much labour and expense in watering the land. In the Koth villages, where the chief products are cotton and wheat, the outturn have been much reduced by the cloudy weather during the months of January and February. These causes reduced the means of the cultivators. It is, therefore, I think, unnecessary for me to give any detailed explanation on account of the current year's outstanding balances, which amount to Rs. 4,257 only. The collection made during the year is more than the gross revenue. This result will, I hope, be considered satisfactory.

System of management.

12. As stated in my last year's report, the revenue of the estate is collected by bigoti rates established in Koth villages by the then Tálukdári Settlement Officer in 1864, when it was under attachment under Act VI of 1862, and in Sánand villages by Rupaliba about 18 years ago. Only 4 wántas of Mátoda, Sákodra, Siáwáda and Kauka have been under bhágbatái system. Notices have been issued to the cultivators of these wántas that from 1892-93 bigoti will be levied from them. As the Mátoda people agreed to pay bigoti from the current year, it has been introduced with your sanction and collection made accordingly. It is only a small wántadi, realizing Rs. 56 only on account of the land revenue. Last year's income under bhágbatái was Rs. 53. The other three wántas will be managed under bigoti rates from the coming year.

13. The wántas in the Mátar and the Daskroi Tálukas (6 in number) were hitherto managed in izáro or farm. With your sanction they have been managed directly by a taláti from this year. One of these, Náika Wánto, in Mátar, in which a hamlet named Dharampur has been found some 25 years ago, and in which only one house of a pági is now standing and a utára has been built this year, has been wholly waste; eighty bighas of land have been let out this year at a bigoti rate to the cultivators of the surrounding villages. This and the grass of the waste land realized Rs. 381 this year. It is hoped that more land will be brought under plough during the present monsoon. Another wánta, Kaloli, in which bigoti levied by the Izárdár has been continued. A sum of Rs. 611 has been realized this year. This wánta is situated on the junction of the Sábarmati and Khari rivers and some of the land can be sown with sugarcane. The farmer used to levy Rs. 16 to Rs. 20 a bigha where sugarcane or ginger was planted. Finding this rate heavy, the cultivators had, since some years, ceased to grow those crops. With your sanction and with the approval of the Thákor, I have reduced the rate to Rs, 9, and it is expected that some additional income will be made in the coming year. The third wánta, Wadála, where there is only one field, produced Rs. 18. Three wántas in the Daskroi Táluka were managed by the farmer in bhágbatai. During the year the cultivators, without waiting for the estimate of the crops, took away the produce, and therefore they were to be charged with the single survey rates as usual in such cases. But on enquiry it was found that for want of rain the crop was not good; half the survey rate was therefore charged and levied with your sanction. For the coming year notices have been issued to levy bigoti. Thus these six wántas, during the year realized Rs. 1,232 against Rs. 655 under the izáro in the past year. This result is satisfactory.

Income and charges.

14. The accompanying Statement B will show at a glance the income and charges of the estate. The estate is composed of 2 sorts of landed property; 1st, the Tálukdári villages and 2nd, the wántas in khálsa villages. The latter have been settled with the summary settlement under sanads. But the settlement of the former is made at the pleasure of Government on the capability of the villages for a term of years. Therefore the charges on account of the Government demand on these villages may increase or decrease according to the circumstances. The amount collected on account of the Tálukdári estate during the year is Rs. 1,25,157, that is Rs. 1,19,751 on account of the current year, and Rs. 5,406 arrears; and that collected on account of wántas is Rs. 16,400, that is Rs. 15,464 on account of the current year and Rs. 936 arrears. A sum of Rs. 148 is received from the Sánand Treasury on account of certain Inám Giras. Thus the total collection was Rs. 1,41,705. To this may be added the cash balance of Rs. 21,838 in the treasury at the end of last year, making the total sum to Rs. 1,63,543. From this a sum of Rs. 1,17,627 has been disbursed on account of the different charges during the year, and a sum of Rs. 45,916 is left in the treasury as cash balance available for future charges, &c.

15. The charges of Rs. 1,17,627 are shown in detail in Statement B. Some special payments, made during the year, require notice. A sum of Rs. 3,686 has been spent on works of improvement of tanks and wells, and repairs to utáras. The Tálukdár's allowance has been raised from Rs. 1,125 to Rs. 1,400 per month since February last. A sum of Rs. 3,500 paid to Mr. MacAfee on 24th July 1891 was not stated in the last year's report, as it was an unknown

charge when the report was submitted. As it was paid in last year it will not come in the account of the current year and, therefore, I have noticed it here. On the other hand a sum of Rs. 2,725 ordered to be paid into the Court in execution of two decrees against the Thákor in July 1891 was not paid in that month; but was disbursed in August 1891, so it will come in the present account. Thus the cash balance of last year was reduced by about Rs. 800 on account of the above two items. Besides the sum of Rs. 2,725 paid into the Court, the Thákor was paid Rs. 20,849 on the following account :—

	Rs.
For payment to his creditors—	
2 Private creditors	15,930
1 Decree-holder (his tutor, who had obtained decree) ...	1,695
Expenses required for litigation	1,000
Special sums required for festivals and other holidays and for charitable allowance	1,524
Marriage presents and expenses for Kotda	700
	20,849

Surplus available.

16. From the above paragraph it will be seen that the year's collection including the past year's cash balance has been Rs. 1,63,543. From this, deducting the ordinary charges of Rs. 90,366, and the sums spent on the improvement, Rs. 3,686, there remains a surplus of Rs. 69,491 during the year. But as the Thákor has already been paid a sum of Rs. 23,575 for the liquidation of his debts and for other purposes, the surplus which will remain available at the end of the year now is Rs. 45,916. As, however, there will be no further receipts till the next year's revenue is due, a sum should be kept in reserve sufficient to pay establishment and the Thákor's allowance till February 1893. These will amount to Rs. 23,000. The contribution of the charges of the Tálukdári Settlement Office will amount to about Rs. 4,000. Total Rs. 27,000. Deducting this from the balance of Rs. 45,916, a sum of Rs. 18,916, or say, Rs. 18,000 in round sum, will be left to be handed over to the Thákor. It is to the interest of the estate and of its holder if this surplus is utilized for increasing and improving the property of the estate, unless it is required in clearing the debts against the estate, which debts the Thákor denies at present.

System of Collection.

17. There was not much trouble for the collection of revenue during the year. The talátis were warned to keep proper precaution to secure the estate demand. With your sanction extra peons were employed to watch the crop of those cultivators who were generally defaulters or remiss. I am glad to say that in a few cases only the attachment of the property was resorted to but in several of such cases even the money was paid before the property was seized. As notices to defaulters cannot be issued, the instalments are not regularly paid. The cultivators having no fear of any extra charge being levied for not paying on the due dates, many well-to-do people are putting off their payments. It is therefore essential that something may be done to add a fee for the default. In some villages and wántas, there are cultivators who are so habituated that their rule was not to pay the revenue, and the Darbár was obliged to resort to the assistance of the táluka Mámlatdárs. The decrees from these officers are obtained. These decrees were generally entrusted to the talátis of the nearest khálsa villages. As these talátis do not get any remuneration for the trouble of the execution of the decrees, they give little attention to them. I found some decrees lying over for years with the khálsa talátis with no recovery. At my request the Mámlatdárs entrusted the execution of these decrees to the talátis of my villages. My talátis not only collected the current revenue in full, but a good sum also on account of these decrees.

18. I had brought to notice in para. 10 of my last year's report, the confused state of khátás. I have, during the year, submitted proposals to simplify these khátás of the cultivators. You have sanctioned my proposals with the reservation that if the Thakor agree they may be carried out. I referred the matter to the Thákor, and also explained to him personally and he fully approved of them, but delayed answering me in writing. I have only lately

received his answer, which does not fully agree to the proposals, under the direction, I believe, of his adviser. However, what is agreed to will be carried out in the ensuing year. Confusion in the Khátás, sometimes lead to some difficulty. A cultivator of Kesarghad, who had mortgaged his field to a creditor, had to stand to answer a criminal complaint lodged by his creditor before the 2nd Class Magistrate of Dholka (the Mámlatdár). The circumstances of this case were these: The cultivator is a Khatedár of the estate, and as such is responsible for the payment of the demand of the estate. He paid his due, current and arrears, this year to the Japti talati, who credited it in the village books and paid the amount into the Mámlatdár's treasury. The mortgagee creditor, who or his debtor the Khátedár, had not paid the estate revenue for the previous two years, finding that he will not get anything for his claim, as the produce was to go for the payment of the estate, filed a criminal complaint before the 2nd Class Magistrate (the Mámlatdár) against the cultivator and the taláti, to get his share in the produce by the force of warrants. The complaint was in another form under sections 109 and 424 of the Penal Code for dishonestly misappropriating the property; but in effect it was to get the share of the produce by the criminal law. This was purely a civil action, and I never heard of such a complaint being ever entertained by any Mámlatdár in his capacity of 2nd Class Magistrate. I was present at the trial of the case. The Mámlatdár was obliged to admit that it was a civil case, and he discharged the defendants after examining the complainant and his witnesses. This case somewhat checked the collection of revenue, and there is more outstandings in Kesarghad than it was at first expected. If the field had stood in the name of the actual holder, this trouble would have been avoided.

Remissions.

19. During the year, remissions to the extent of Rs. 565-11-6 have been given to the cultivators, who were unable to meet the demand owing to the total failure of rice and vari (coarse rice) crops in the village of Goraj and wánta of Sánand. The amount to the extent of Rs. 895-4-0 has been written off as irrecoverable, partly on account of the Khátedárs having died and partly unnecessary imposition of bigoti on certain lands, from which no recovery was ever made. There are some still irrecoverable cases, enquiry regarding which has still to be made. The amounts thus written off are as follows:—

	Rs.	a.	p.
Sánand Wánta	520	9	0
Goraj	305	8	6
Kalána	207	10	6
Bol	104	10	0
Modásar	106	4	3
Sari	83	10	9
Kolat	39	4	6
Koth	44	2	6
Devti Wánta...	45	7	3
Kaloli Wánta	3	12	3
	1,460	15	6

Waste lands.

20. There are waste lands in the following villages:—Koth, Kesarghad Rupghad, Gundi, Juwarad, Baldána, Devalthal, Modusar Goraj, Bol, Kalána, Nidhrad and Rupáwatil

Some land was newly occupied during the last rains in the villages of Goraj, Bol, Kalána, and Rupáwati, and the revenue has increased from 30 to 50 per cent. thereof. Some 40 new settlers had to come at Gundi from Káthiáwár and other places during the winter, and with your sanction arrangement was made to give them land at a low rental. But owing to heavy mortality by the influenza which prevailed in the winter, none were able to come. Some villagers suffered a heavy loss by the mortality, and further progress of taking up land was stopped. But on the other hand, much land was thrown out of cultivation during the year. Since these 6 years, owing to scanty rainfall, rice land is usually thrown up; but is again occupied in the rains if the rainfall is sufficient for the plantation of rice. Some new settlers have come in Kesarghad, Rupghad and Gundi lately. I have obtained your sanction to let the unoccupied land in Koth, Kesarghad and Rupghad at a single survey rate, and I am glad to say that about 1,500 bighas of

land has already been occupied. It is hoped some more land will be still taken up. In Gundi also some new land has been taken up. If let on a light bigoti rate, I think, much land can be brought under cultivation in other villages; but much depends upon the rainfall. If I am empowered to let land on a rate which may be found reasonable, and which may be agreed to by the cultivators. I hope that much land may be brought under plough gradually.

Trees.

21. I have caused the enumeration of different sorts of trees in the villages and wantas during the year. They are as follows:—

Fruit-bearing trees—			
Mango	...	1,752	
Khinis or Raen	...	1,302	
Tamarind ...	...	727	
Mahuda ...	...	260	
Jambuda ...	...	484	
Boydi ...	...	473	
Gundi ...	...	907	
			5,905
Shady trees—			
Leem ...	...	7,331	
Pimpar ...	...	1,012	
Wad ...	...	159	
			8,502
Babul trees...	...		1,405
Other trees of sorts	...		5,990
			21,802

Of the fruit-bearing trees, some amount is realized from mangoes and khinis. Other trees have been hitherto wholly neglected, partly owing to no market near the villages, and therefore no purchasers, and partly to slack supervision. I have slowly commenced to recover something from the other fruit-bearing trees. As the villagers have hitherto enjoyed them free, they feel rather hard even to pay a trifling sum. The mango crop has totally failed this year; out of 1,752 trees only 12 were scantily cropped. More trees can be planted in all the villages and opportunity will be taken by and by to do so. A grass beer in Sánand was made over to the Thákor last year with a view to the plantation of the country babul trees. He has lately ordered the clearing of the land, and it is to be seen whether he does anything this monsoon.

Local Funds.

22. I had the honour to request you last year to apply to the President of the Local Board to appoint me a member of the Dholka and Sánand Táluka Local Boards, and also of the District Local Board. Since November last I have been appointed member of the Sánand Táluka Board and by the election of the Sánand Board, Member of the District Local Board. I have not yet been appointed on the Dholka Táluka Board. As there are 11 villages and several wantas in that táluka, I should have some voice in the management of the funds of that táluka also. I have also not yet been appointed on the Municipal Board of Sánand, where I ought to be, as the bulk of the site of the town belongs to the estate.

23. This estate pays an annual sum of Rs. 4,879 to the Local Boards; but very little is spent on the villages of the Thákor. In Sánand I obtained Rs. 125 for the deepening of the tank at Teláv out of the Government grant from the Local Board, and that with some difficulty and on my agreeing to contribute more than double that sum. In Dholka only a sum of Rs. 300 has been sanctioned for a well at Kesarghad, and a portion of it has been spent this year. It will be seen therefore that not one-twelfth of the sum paid by the estate has been spent on its villages during the year. I hope you will be pleased to bring the subject to the notice of the authorities that a fair sum may be spent on the estate. As a member of the Board I will try to do what I can in the matter.

Improvement of tanks and wells.

24. A good sum has been spent this year on the irrigational works. It was found that for some years no money was spent on the tanks and bandhs which hold water for the use of the villagers and cattle as well as for the irrigation of rice

lands, and thereby the cultivation was decreased. The following sums have been spent on the improvement of the bandhs and deepening the tanks:—

Village.	Contribution from estate.			Contribution from villagers.			Total.			Remarks.
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	
Teláv	214	0	0	175	0	0	389	0	0	Besides Rs. 125 from Local Fund.
Devti	300	0	0	100	0	0	400	0	0	
Sari	200	0	0	100	0	0	300	0	0	
Modasar Idar	104	8	0	.....			104	8	0	
Goraj ... ..., ...	1,000	0	0	250	0	0	1,250	0	0	
Bol	181	8	0	150	0	0	331	8	0	
Kalana	100	0	0	.....			100	0	0	
Rupávati	350	0	0	50	0	0	400	0	0	
Siáwáda	50	0	0	.....			50	0	0	
Total ...	2,500	0	0	825	0	0	3,325	0	0	

Now the people say that if there be sufficient rain a large amount of land will be taken up. I have asked the Mámlatdár of Sánand to take the measurement of these works by the Local Board overseer with a view to obtain assistance on a future occasion. I had applied for a sum for a bandh at Idárpura of Modásar, but there was already sanctioned a large sum for other works; I was directed to postpone it for the next year. However some repair was urgently required to the Idár bandh, and I have re-appropriated Rs. 104-8-0 from the sanctioned amount of Teláv, where there was a surplus owing to the grant from the Local Funds.

25. The following sums have been given to the cultivators as a share of the costs incurred by them in building and repairing wells in the lands of the Darbár. It has been the practice that if a cultivator, with the permission of the Thákor, builds a well, a share of the costs is paid from the estate, not in cash, but by a credit in his kháta. This share is given according to the custom of the village or wanta which exists for the dividing of the produce raised by the irrigation from the well between the landlord and tenant. This share is generally ¼, ⅓ or ½. In some cases the estate must incur the whole cost, the cultivators paying nothing. Income of the wanta of Maflipur depends for irrigation on wells; it is collected according to the kind of crop grown. If a good crop like sugar-cane or ginger is sown, a good sum is realized. But almost all wells are out of repairs. I have examined them all, and unless they are repaired, the income will go down. I have ordered for an estimate of the costs, and when ready, I will submit proposals:—

	Sums given.		
	Rs.	a.	p.
4 wells at Badarkha Wanta	333	5	9
1 well at Goraj	56	8	0
1 well at Sari...	30	0	0
1 Kaliapura village well repaired wholly by the Estate	71	9	8
	491	7	5

A sum of Rs. 100 was sanctioned for the village well at Rupávati; but it has not been repaired this year and postponed for the coming year with a view to obtain assistance from the Local Board.

Estate buildings.

26. I have stated in paragraph 13 of my last year's report that the estate buildings in many of the villages were neglected and are in ruins. In several villages new buildings are required. In some villages houses have been rented for the Chora. During the year Rs. 440 have been sanctioned for the repairs of utaras in 8 villages. I intend to submit proposals during the coming year, if the season becomes favourable, to build utaras in some of the villages where they are urgently wanted.

27. No dispute of any note has arisen which has necessitated a recourse to the Courts. Only cases that have happened are that certain buildings of the cultivators in Modásar and Baldava have been attached by the Court at Dholka at the instance of the creditors of those cultivators. The Thákor claimed that the houses belong to the estate, the cultivators having no more right than to inhabit therein, and therefore houses cannot be sold. On my representing the matter to you I was informed that it was the duty of the Thákor to take what steps he likes, and he has been informed accordingly. I have no knowledge what the Thákor is doing in the matter.

Litigation.

28. The suit of much importance is the appeal of Government against the decision of the Joint Judge of Ahmedabad, who passed decree in the favour of the estate regarding the wánta site of Sánand. In this appeal, the Tálukdári Settlement Officer is joined as a co-respondent with the Thákor. It is pending in the High Court. The trees standing on the site are still sold by the Mámlatdár though objected to by the Thákor, owing to the decree in his favour. Now the Thákor, I am told, is about to move the Court to execute the decree.

29. Bai Rupaliba had contracted debts to the extent of about a lákh of rupees at the time of the Thákor's marriage for the marriage expenses and for the repairs of the buildings of the Sánand Darbár. The creditors had obtained decrees under the awards of the Panch before the Thákor attained his majority. After attaining majority, the Thákor filed petitions in the Court to set aside the awards, on the ground that there was no need to contract debts, and that Rupaliba had no authority to incur them. In three cases out of six, the awards were upheld, and the decree-holders have obtained their money by the execution of the decrees. The money was paid from the cash balance in our hands. The Thákor has filed appeals against the decision of the lower Court and they are still pending. In the other three cases the awards were set aside on a technical legal objection, and the creditors have filed regular suits for about seventy-thousand rupees in the Court of the First Class Subordinate Judge. They are pending for decision. About forty-thousand rupees worth of gold and silver ornaments have been, it is said, pledged with these creditors. Besides the above debts, there are about twenty thousand rupees due to Modis and servants of the estate. Two servants, who have ceased to have connection with the Thákor, have lately filed suits. If the Thákor fails in his attempts in the Court, the debts to be paid to the creditors will be about Rs. 30,000 after the pledged ornaments are sold. It is not expected that any of the servants will go to Courts, and if the Thákor were good enough to pay them their legitimate dues, it can be discharged from the current year's surplus.

30. You had remarked in paragraph 15 of your memorandum on my administration report of last year that the legality of the charge of Rs. 2,167 for the maintenance of the special police force at Koth was doubtful under Act VI of 1888. I believe the subject was referred to Government, but no order has yet been received on the subject. Some reform is required in the village police establishments. At present there are págis and jiwaidárs remunerated either by giving land or paying in cash; but duties are not properly performed by these men. I intend to submit definite proposals on the subject after consulting the heads of villages and others, whose opinion will be well worth in such matters.

Village Police and other servants.

31. I have ordered the preparation of a register of service holdings for all the villages and wántas, containing information as to how the matter at present stands, who enjoys the land and under what tenure. Also thorough enquiry is necessary in certain holdings which do not contribute anything to the estate which has to bear the burden of the *jama* and other charges. The subject is one of great importance; but as the Manager does not dispose of the case even if it is found with proof that the land, belongs to the estate, but refers it to the Thákor, I am doubtful whether I should proceed with the enquiry of these holdings, if they are not to be disposed of under the management.

Service and other lands.

32. There is not a single village in which I have not heard of the damages by the Bharwars. These Bharwars, and there are some Charans and the like, whose only trade is to keep a

Damages by Bharwars.

number of cattle, let them loose during the night, and allow them to graze upon the land whether waste or cultivated. They are generally strong-bodied men, and a stroke or two of their cudgel is sufficient to kill any person coming under their wrath. Such cases are not uncommon. Owing to this state of things, the poor cultivators do not dare to complain against them, especially for fear of their bullocks, &c., being robbed and carried away by the Bharwars, and thereby to loose their means of cultivation. If they wish to complain they have no time or money to spend at the time of cultivating or harvesting season, as the loss of time will be the loss of their income. Besides, their complaints, if they make them at all, will not be disposed of for some days. It is therefore necessary that some arrangements of summary disposal of such cases may be devised. I have submitted to you proposals to charge heavy fee for every head of cattle from these people if they remain in the village. In reply I am asked to obtain the Thákor's opinion. It is always difficult to impound their cattle, which are not manageable by other than Bharwars themselves.

33. Besides the damage caused by these Bharwars and others, there are other persons, who are not agriculturists, but are styled "Ubhadiás." Their usual habits are to go out at night in the fields and get as much grain or cotton as possible surreptitiously, and live on such plunder. Their plunder is from 5 sers to a few maunds; but when they go in a band, sometimes a whole field is devastated. There should be some arrangement to protect the people from such plunder.

34. In the village of Koth such damages have been more than in the other villages of the estate. The Koth people, with the assistance of the Darbár and with their own expense, used to employ extra men to watch the 'Sim'. Last rains they requested me to arrange for such a watch, and with your sanction it was done. The expense incurred amounted to Rs. 1,400, which has been rateably paid by all the people holding lands, whether Darbári, barkhali or charkriát. I am glad to state that little or no damage has been caused either by cattle or thieves, nor any case of incendiarism has occurred, of which there were many in the previous year. I have just received applications from the people to make arrangements for the coming year, as was done for the current year. The subject is under my consideration, and proposals will be submitted to you shortly. It is for the purpose of checking the damages mentioned in the above paragraphs and also for checking people of bad character, of whom there are some in Koth, that I had applied for magisterial powers for the satisfactory management of the estate. But as the Collector has declined to recommend, I do not wish to press the matter any further, as it is not for my own sake.

Condition of the people.

35. I am sorry the condition of the people has not improved owing to the insufficiency of the timely rain last monsoon, and the reasons stated in the following paragraph. If the present monsoon fares well, some improvement in their condition may be expected.

Season.

36. The rain last monsoon was a month later than usual. But when it commenced falling after 22nd July 1891, it fell in torrents, accompanied with thunder and lightning. It was raining the whole week and in that period nearly 20 inches had fallen. By this rain tanks of several villages in Sánand had burst open and the cultivators had a very great difficulty to stop the gaps. With your sanction, assistance was given to repair all such openings. The villagers took much trouble and all worked with heart and soul in the current of deep water to save the water running off the tanks. Had they not received the timely assistance from the estate, the rice crop would have been nil in several villages. The cultivators, who had the command of water, produced rice after much trouble and expense in watering their land. The land depending upon the rain-water for its rice produce totally failed, as there was no rain at the end of September and beginning of October, when it was urgently wanted throughout the district. Cloudy weather during January and February damaged the cotton and wheat, and reduced the outturn from 30 to 50 per cent. When the cotton was ready for sale, the news from America of the increased produce of cotton there had lessened the price here, and for some time the cultivators found no purchasers, and had to sell at a low price. This reduced their income. As regards wheat, in several cases, it was

found that the produce was not sufficient even to pay for the seeds. In a bhágbatái case, owing to very little produce in a field, the estate had to pay a sum in cash from the treasury for seeds to the cultivator. On the whole, the season was less productive than an average year. Though a good sum has been collected this year, I candidly admit that the cultivators in many cases had to make up the amount of the demand of the estate by borrowed money. Those who had no credit in the market could not pay their dues which were outstanding.

37. During the winter influenza fever was raging in an epidemic form, and an unusual number of deaths was reported from all villages. This had lessened the strength of many families. Want of medical aid was much felt at Koth and surrounding villages. I think there ought to be a small dispensary at Koth it being the largest of all villages in that part of the country. A small outlay from the estate proceeds on that account will be a good investment.

38. Two hundred and fifty-five daftars have been arranged and catalogued. A few remain to be arranged. I hope to complete the whole record during the monsoon.

Records.

39. The Thákor has paid but very little attention to the work of management. At his request I had accompanied him for a few days in the beginning of May to Koth, Juwarad and Saragwala, and explained to him many things and suggested several reforms, asking him at the same time either to write to me or the Tálukdári Settlement Officer to carry them out; but I do not think he has thought of it since. He has been to Bombay since more than 5 weeks.

40. I beg respectfully to state in conclusion that I have done what I could for the good management and collection of the revenue. I find my duties not less arduous and weighted with not less responsibility than those of a Mámlatdár. I have to work amongst an untrained agency and people who are not accustomed as in the khálsa villages, and yet I have to carry out my duties on a regular system. I have not been invested with any powers, as a Mámlatdár is, and my authority is therefore far less than that of that officer, and thereby the efficiency of my administration of such a large estate is much weakened. Also when I refer a complainant of my village to the Mámlatdár for his remedy, my influence suffers considerably among the people with whom I have to work. With such difficulties, I think, I have carried out my duties according to requirements, and I respectfully submit that what has been performed will be considered satisfactory.

Conclusion.

I have the honour to be,

Sir,

Your most obedient Servant,

HUTHISING RAECHUND,

Deputy Manager, Sánand and Koth Estate.

HUTHISING RA'ECHUND,
Deputy Manager, Sánand and Koth Estate

SÁNAND AND KOTH ESTATE.

Deputy Manager's Administration Report for 1891-92.

MEMORANDUM.

This report is submitted for the year 1891-92, the first complete year during which the Sánand and Koth estate has been managed by this office under section 26, Act VI of 1888.

2. The figures relating to the income of the estate and the realization of its revenues are distinctly satisfactory. The gross revenue for the year under report was Rs. 1,40,932 as against Rs. 1,33,716 in the previous year, and the amount collected was Rs. 1,41,705 (including portion of the outstanding balance of other years) as against Rs. 1,26,916 realized in 1890-91. Of the sum collected Rs. 1,35,215 were on account of the year under report and Rs. 6,342 on account of the previous and other preceding years. As pointed out by Mr. Huthising in his 6th paragraph, this year's figures compare even more favourably with those of the previous year, if we allow for the amount written off as irrecoverable which had previously been shown in the accounts.

3. The expenditure during the year amounted to Rs. 1,17,627, full details of which are given in Appendix B. The cost of establishment, including the charges of the Tálukdári Settlement Officer came to 10·8 per cent. of the total amount collected, the Tálukdári Settlement Office charges alone being 2·3 per cent. of that amount. The Thákor has an allowance of Rs. 1,400 per mensem, which ought to be quite sufficient for his needs. During the year the sum of Rs. 20,350 was handed over to the Thákor for the liquidation of his private debts, some of which had been decreed against him, and Rs. 3,686 were expended on works of utility in villages of the estate. The greater part of this latter expenditure will, it is hoped, prove remunerative.

4. At the beginning of the year under report there was a balance in hand of Rs. 21,838. Adding to this the income realized during the year and subtracting the expenditure, it appears that the surplus balance in hand is Rs. 45,916. As explained by the Deputy Manager, a portion of this amount must be kept in hand for expenses, which will have to be met before any further revenue becomes due. A sum of Rs. 18,000, however, can now be placed at the disposal of the Thákor, and he will be advised to utilize it either in paying off existing debts or in any other way which will prove beneficial to his estate. From the above figures, it will be seen that the result of the Government management has been that, after paying all charges connected with the estate and the Thákor's allowance, a balance remained over, amounting to more than Rs. 65,000. This is on the whole very satisfactory, and the Acting Tálukdári Settlement Officer is specially glad to note that the increase in the income, as compared with that of the previous year, was due to a larger area of land being under cultivation.

5. The balance outstanding at the end of the year under report on account of that year was only Rs. 5,718, of which Rs. 1,461 have been written off as irrecoverable. The remaining sums will, it is hoped, be realized next year. The Deputy Manager's explanation as to the cause of non-payment of this outstanding amount is satisfactory. As regards the outstanding balance of the year 1890-91, it appears that Rs. 4,048 were collected during the year under report, and a sum of Rs. 4,773 was written off under the orders of this office, after careful and detailed enquiry by Mr. Huthising. The amount now outstanding on account of 1890-91 is Rs. 6,303.

6. The question of the balance outstanding on account of years previous to that in which management was assumed by this office has received attention from the Deputy Manager, who has made careful enquiries in each village. Statements showing the total amounts due and the sums which Mr. Huthising considers irrecoverable have been supplied to the Thákor, with a request that he will take action on them; but Mr. Quin regrets to note that hitherto nothing has been done in the matter by the Thákor. Of the total amount due, Rs. 2,294 have been recovered during the year under report, payment, it is presumed, being made voluntarily to the taláti.

7. The remissions granted during the year, exclusive of sums written off as irrecoverable by reason of the death or absence of the tenant, amounted to Rs. 565-11-6. They were allowed on account of the total failure of the rice-crop in certain villages in the Sánand Táluka.

8. Steps have been taken to introduce from the current year bigoti rates in the wántas in six villages, and with the consent of the tenants the rates have already been introduced in a seventh. The wántas in six villages, which had hitherto been given in farm were this year managed directly with the satisfactory result that the income realized amounted to Rs. 1,232 as against Rs. 655 in the previous year; and it appears probable that the income of the current year will be still higher.

9. The Acting Tálukdári Settlement Officer is pleased to note that the revenue collections were made during the year under report with but little difficulty, a fact which is very creditable to the Deputy Manager. The criminal case referred to in the 18th paragraph of the report was brought to the notice of the District Magistrate, who, however, finds himself unable to interfere. The complaint appears to have been accepted by the 2nd Class Magistrate without due enquiry as to whether the alleged facts disclosed any offence. The question of altering in the village accounts the names in which lands are held, in order to bring the books up to date and into accord with the existing facts, is one of great importance and must not be lost sight of during the current year.

10. Attempts have been made by the Deputy Manager to induce cultivators to take up some of the waste lands of the estate, and they have been to some extent successful. By judicious concessions it is hoped that still more waste will be brought under cultivation during the current year. Mr. Huthising has done well to continue his attention to the question of the fruit-bearing and other trees on the estate. These trees should prove a source of considerable income.

11. During the year under report, the Deputy Manager has been appointed a member of the Sánand Táluka Local Board and has been elected to the District Local Board. It would be satisfactory if he could be put on the Dholka Taluka Board also, as the interests of the estate in that táluka are very large. The question of his becoming a member of the Sánand Municipality may await the result of the Government appeal to the High Court in regard to the Sánand wánta suit. Mr. Huthising should use his best endeavours to obtain from the Local Boards such assistance as the villages of the estate are entitled to.

12. The expenditure during the year on tank and well repairs was sanctioned in detail by this office before the works were undertaken. It is hoped that this expenditure will be reproductive, and that a considerable area of land now waste will be taken up shortly on account of the new irrigational facilities. The Deputy Manager should report on this matter in due course.

13. The financial condition of the estate though not satisfactory is better than was at first feared. The debts claimed against the Thákor appear to amount to about a lákh of rupees. This sum with careful management should be paid off in four or five years. The Thákor will be asked to come to some settlement with the servants whose wages have remained in arrears.

14. Orders have recently been received from Government allowing the removal of the police post at Koth. The report of the Deputy Manager on the subject of the re-organization of the village police will be awaited.

15. The Deputy Manager should continue his enquiries regarding the service lands. When they are completed the question can be dealt with in consultation with the Thákor.

16. Mr. Quin is glad to learn that the special arrangements for watchmen in the lands of the village of Koth have proved so successful. They are to be continued during the current year at the request of the cultivators, who willingly defray the cost themselves. Mr. Huthising's remarks on the Bharwars who infest the estate and do so much damage to the crops, will receive consideration when the Thákor's views on the subject have been ascertained.

17. The heavy rain at the end of July caused considerable injury to many of the tanks on the supply of water in which the rice-crop is to a great extent dependant, and that crop was damaged by the absence of late rain. The wheat crop also was not good, and, on the whole, the season was below the average. The Acting Tálukdári Settlement Officer regrets to learn that the rents were in many cases paid from borrowed money. The season was an exceptionally unhealthy one, and the mortality from fever and influenza was very high. The question of the establishment of a small dispensary at Koth will be considered when the finances of the estate are in a more satisfactory condition.

18. The office of Deputy Manager has been throughout the year in charge of Mr. Hathising Raechund, and he has performed his duties in a manner which is entirely satisfactory. He shows a most commendable interest in the affairs of the estate, and has worked with great industry. The increased income and the absence of pressure in realizing the rents are in great measure due to his careful attention to details, and his firmness in dealing with the tenants. The Acting Tálukdári Settlement Officer has no doubt that under his supervision the condition of the estate will continue to improve.

H. O. QUIN,
Acting Talukdari Settlement Officer.

Ahmedabad, 9th July 1892.

No. 2213 OF 1892.

To

H. O. QUIN, ESQUIRE,
Acting Tâlukdári Settlement Officer.

Ahmedabad, 18th July 1892.

SIR,

I have the honour to return the administration report of the Koth estate and to inform you that I regard Mr. Hathising's report as extremely interesting and satisfactory. The affairs of the estate have improved very much and more than was expected. Mr. Hathising's objection to the share of Local Fund expenditure takes no account of expenditure on schools or on the main road through Sánand, nor the road from Ahmedábad to Koth through Bawlah The estate has nothing to complain of.

2. I hope that strong measures may be taken with the Bharwars, who infest that part of the district.

I have the honour, &c.,
(Signed) C. E. FROST,
Collector.

(True Copy.)
H. O. QUIN,
Acting Tálukdári Settlement Officer.

APPENDIX XI.

List of Civil Suits conducted by or on behalf of the Tàlukdári Settlement Officer.

No.	Name of Plaintiff.	Name of Defendants.	Subject.	Remarks.
1	2	3	4	5
		SUITS PENDING AT THE CLOSE OF THE LAST YEAR. AHMEDABAD COLLECTORATE.		
1	Jivandás Anandji of Gogha ...	The Secretary of State for India.	To establish that no more *jama* can be levied from him than what may be due on the land which was purchased by him and which actually came into his possession, and to recover back the excess levied from him.	The lower Court rejected the plaintiff's claim. The plaintiff preferred an appeal to the High Court which confirmed the lower Court's decree.
2	Mohan Karsan and others of Bávla.	The Collector of Ahmedabad as administrator of the Gángad estate.	To recover back the amount levied on account of Local Fund cess on the lands in their cultivation, which they claim to hold at a fixed rental.	Decided in favour of the plaintiff by the Assistant Judge. An appeal has been preferred to the High Court. (Government Resolution No. 1593, dated the 2nd March 1891). The appeal is pending.
3	Makwána Prág Aja of Wárna...	The Tálukdári Settlement Officer as manager of the estate of Latifkhan Sardar Mahomed.	To establish title that no salami can be levied for the vegetable grown in the site belonging to him in the village.	Suit dismissed by the District Judge of Ahmedabad. Prag Aja appealed to the High Court, which confirmed the lower Court's decree.
4	Girdharlal Hargowan of Viramgám.	The Collector of Ahmedabad as administrator of the estate of minor Himatsing Mobatsing of Bhankoda.	To establish claim to receive the income of the Golwadi Darwaja choki in Viramgám, the amount being in deposit in the Viramgám Mámlatdar's treasury in execution of his decree against the Tálukdárs of Chaniár.	The Joint Judge of Ahmedabad dismissed the plaintiff's claim with costs. Against this decision the plaintiff has appealed to the High Court.
5	Do. do. ...	Do. do. ...	Do. do. ...	Ditto.
6	Juwánsingji Bhaisáheb, minor, by his friend Nánbha Vakhatsing of Gángad.	The Collector of Ahmedabad as administrator of minor Gagubha Ráesingji of Makhiáv.	The plaintiff filed a suit in the Court of the First Class Subordinate Judge claiming to be the heir to the Gángad estate.	The Subordinate Judge decided that some others who claimed to be heirs to the estate should be joined as co-defendants. Against this decision the plaintiff has preferred an appeal to the High Court. The appeal is pending.
7	Bai Shri Májirajba, widow of Mábhárána Gaghubha Abhesingji, late Thákor of Gángad.	The Collector of Ahmedabad as administrator of the Gángad estate under Regulation VIII of 1827.	To obtain refund of the amounts of *jama* levied from her on account of the village of Bhumli and certain other lands given to her by her husband as jiwai and an injunction to the defendant to pay in future the amount of *jama* on her jiwai lands from the income of the Gángad estate.	Decided in favour of the plaintiff by the First Class Subordinate Judge of Ahmedabad.
		KAIRA COLLECTORATE.		
8	Damodar Lalbhai of Nariád ...	Thákor Mádhavsing Kesrising, deceased, by his heirs his sons Partapsing Madhavsing and two others. The Tálukdári Settlement Officer.	To recover rent of certain land and houses in Bhetási, which the plaintiff alleges to be his property.	The Joint Judge dismissed the suit. Against this decision the plaintiff appealed to the High Court. The High Court has directed the lower Court to take evidence as to whether the documents relied on by the plaintiff are binding on the sons of the deceased defendant.

APPENDIX XI—*continued.*

No.	Name of Plaintiff.	Name of Defendant.	Subject.	Remarks.
1	2	3	4	5
		KAIRA COLLECORATE—*continued.*		
9	Sanábhai Sidhar of Dabhán ...	The Tálukdari Settlement Officer as manager of the estates of Vakhatsing Adesing and Rattansing Jijibhai.	To establish that no more can be levied from him than the amount mentioned in the lease of the wanta of Dabhán, which is alleged to be a permanent one, and to recover the excess levied from him.	The claim was rejected by the Assistant Judge. The plaintiff appealed to the District Judge, who also rejected the appeal. He has appealed to the High Court. The appeal is pending. (Government Resolution No. 5991, dated 1st September 1891.)
10	Dádábhai Narotam heir of Gala Govind of Dabhán.	The Tálukdári Settlement Officer as managar of the estates of Wakhatsing Ádesing and Rattansing Jijibhai.	To establish that no more can be levied from him than the amount mentioned in the lease of the wanta of Dabhán, which is alleged to be a permanent one, and to recover the excess levied from him.	The claim was rejected by the Assistant Judge. The plaintiff appealed to the District Judge, who also rejected the appeal. He has appealed to the High Court. The appeal is pending. (Government Resolution No. 5991, dated 1st September 1891.)
11	Khushal Gala of Dabhán ...	Do. do. ...	Do. do. ...	Do. do.
12	Bhikha Vithal of Dabhán ...	Do. do. ...	Do. do. ...	Do. do.
13	Sana Aju of Dabhán	Do. do. ...	Do. do. ...	Do. do.
14	Haribhai Ratanji of Dabhán...	Do. do. ...	Do. do. ...	Do. do.
15	Girdhar Shivábhái, heir of Shivabhai Warajbhai of Dábhán.	Do. do. ...	Do. do. ...	Do. do.
16	Shanker Báji, deceased, his heir Bhula Mulji, by his friend Lallu Mathur and Lallu Mathur himself, of Dabhán.	Do. do. ...	Do. do. ...	Do. do.
17	Mádhavsingji Báwáji of Napád.	The Tálukdári Settlement Officer as managar of the estate of Bháratsing Báwáji.	To obtain certain land and houses from the estate, which he alleges he is entitled to get as brother of the Thákor.	The claim was rejected with costs by the District Judge of Ahmedabad. The plaintiff has appealed to the High Court. The appeal is pending.
18	Gosái Pitámargar Hansgar of Nápad.	1. The Tálukdári Settlement Officer as manager of the estate of Nápad. 2. Nanábáwa Motáji. 3. Rupsing Abhesing and Gambhirsing Abhesing.	To establish title to certain land in Nápad, which the plaintiff alleges to have been purchased by his ancestors and to recover mesne profits for three years.	The claim was rejected with costs by the District Judge of Ahmedabad. Against this decision the plaintiff has appealed to the High Court. The appeal is pending. (Government Resolution No. 7344, dated 24th October 1891.)
19	Second appeal No. 699 of 1890. The Municipality of Nadiád (appellant.)	Kishorebhai and Kalidas Wágjibhai, minors, by their guardian the Collector of Kaira.	To have an encroachment made by the minor respondent's father removed.	Pending in the High Court.
		BROACH COLLECTORATE.		
20	Sardársing Himatsing of Sárod.	Ganpatsingji Himatsingji. The Manager of the Sárod estate.	To establish that he is entitled to the Gádi of the Sárod estate, or to an equal share therein.	The Assistant Judge, F. P., Broach, rejected the plaintiff's claim; against this decision the plaintiff appealed to the High Court. The High Court reversed the order of the lower Court and remanded the case for trial on the merits.

APPENDIX XI—*continued.*

N.	Name of Plaintiff.	Name of Defendant.	Subject.	Remarks.
1	2	3	4	5
		KAIRA COLLECTORATE—*continued.*		
21	Thákor Ráesingji Jaswatsingji, minor, by his guardian and mother Rájuba of Sigám.	The Tálukdári Settlement Officer as manager of the estate of Jitsingji of Sigám.	To recover back rent of a field and a house levied from plaintiff, who alleges that he being the owner of the property, no levy can be made.	The Assistant Judge, F. P., rejected the plaintiff's claim with costs. Against this decision the plaintiff has appealed to the High Court and the appeal is pending. (Government Resolution No. 2948, dated 29th April 1891.)
22	Rámsingbáwa Khumánsing, minor, by his guardian and mother Bái Gumánba.	1. Khushálsingji Mohansingji of Jhánor. 2. The Tálukdári Settlement Officer.	To establish that plaintiff is entitled to a Toda Giras Hak, which Government have ordered to be entered in the name of the defendant No. 1.	The Assistant Judge, F. P., rejected the plaintiff's claim with costs. Against this decision the plaintiff has appealed to the High Court. The appeal is pending. (Government Resolution No. 6466, dated 19th September 1891.)
23	Bái Rattanba, widow of Rámsingji Bhagwánsingji of Jhánor.	The Collector of Broach as administrator of the estate of Jitsingji Bharatsingji of Jhánor.	To obtain maintenance allowance from the estate.	The plaintiff's application to sue *in forma pauperis* was rejected, as it was defective in form. She again presented an application to the Assistant Judge, F. P., Broach and the application was granted and numbered as a suit. The suit is pending.
24	Venilal Narotamdas of Jambusar.	1. Thákor Ganpatsingji Himatsingji of Sárod as heir of Bái Rájuba, widow of Becharsing Bhagvansing. 2. The Tálukdári Settlement Officer as manager of the estate of Ganpatsingji Himatsingji.	To recover possession of certain land mortgaged by the deceased Bái Rájuba to the plaintiff, the possession of which was taken away by defendant No. 2 on behalf of the Thákor or to obtain the mortgage money.	Pending in the Court of the Assistant Judge, F. P., Broach. (Government Resolution No. 6134, dated 29th August 1890.)
25	Harprasád Rájárám of Broach.	1. Bhathí Dos Bájibhái of Khandáli. 2. The Tálukdári Settlement Officer as manager of the Khandáli estate.	To obtain possession and mesne profits of certain land in the village of Samni, which he purchased at an auction sale held in execution of a decree.	Decided partly in favour of the plaintiff and partly in favour of the defendants, and the decision was acquiesced in. (Government Resolution No. 3044, dated 28th March 1892.)
26	Do. do. ...	Do. do. ...	To obtain possession and mesne profits of certain land in the village of Vasti Khandáli, táluka Vágra, which he purchased from one Rámdayál Gowri, who purchased it at an auction sale held in execution of a decree (Suit No. 13 of 1890).	Do. do.
27	Do. do. ...	1. Bhathi Kalu Gulbha, heir of Gulbha Nurbha, deceased, of Khandáli. 2. The Tálukdári Settlement Officer as manager of the Khandáli estate.	Do. (Suit No. 14 of 1890).	Do. do.
		NEW SUITS FILED DURING THE YEAR.

To obtain possession of certain land in Rabariwáda in Nadiád.	Pending in the Court of the First Class Subordinate Judge of Ahmedabad.
		BROACH COLLECTORATE.		
34	Gemalsing Abhesing of Sárod..	1. The Tálukdári Settlement Officer as manager of the Sárod estate. 2. Ganpatsing Himatsing, Thákor of Sárod.	To recover Rs. 216-4-0 recovered from him on account of rent of Survey No. 60 in Sárod Wánta, the plaintiff alleging that only a salámi of Rs. 6-8-0 per annum was leviable from him.	Pending in the Court of the Assistant Judge, F. P., Broach.
35	Sárábhái Dájibhái of Sárod ...	1. Raesingbáwa Khusalbawa and six others. 2. The Tálukdári Settlement Officer as manager of their estate.	To recover possession of certain land (Survey No. 580) in Kangam, táluka Jambusar, and to obtain refund of rent levied from him.	Do. do. Ordered to be compromised by Government Resolution No. 5793 of 15th July 1892.
36	*Appeal* No. 216 *of* 1891. Kázi Chotásáheb of Ahmedabad, (Appellant).	Kázi Ahmed Husen, deceased, by his heirs, his sons Mahomed Nuruddin Husen and Gulam Ahmed, minors, represented by their administrator the Tálukdári Settlement Officer (respondent).	The deceased Kázi of Broach had sued the Kázi of Ahmedabad to recover Rs. 948 on account of annuity. The Joint Subordinate Judge of Ahmedabad passed a decree in favour of the Kázi of Broach. Against this decision the Kázi of Ahmedabad appealed to the District Judge. Meanwhile the Kázi of Broach died and his minor sons are represented by the Tálukdári Settlement Officer.	The District Judge of Ahmedabad confirmed the lower Court's decree reducing the amount of the claim to Rs. 585 on the 12th January 1892. Steps are being taken to prefer an appeal against this decision to the High Court on behalf of the Kázi of Broach.
37	*Appeal* No. 206 *of* 1891. Kázi Chotásáheb of Ahmedabad.	Do. do. ...	The deceased Kázi of Broach had sued the Kázi of Ahmedabad to recover possession of a house in Ahmedabad. The Joint Subordinate Judge of Ahmedabad passed a decree in favour of the Kázi of Broach. Against this decision the Kazi of Ahmedabad appealed to the District Judge.	The District Judge confirmed the decree of the lower Court.

H. O. QUIN,
Acting Tálukdári Settlement Officer.

H. O. QUIN,

Acting Tálukdári Settlement Officer, Gujarát.

REMARKS OF THE COMMISSIONER, N. D., ON THE ADMINISTRATION REPORT OF THE T'ALUKDA'RI SETTLEMENT OFFICER FOR THE YEAR, 1891-92.

No. 3525 of 1892.

REVENUE DEPARTMENT.
Poona, 3rd October 1892.

Forwarded to Government.

Officer in charge.

2. The department continued under Mr. Quin throughout the year, except for 17 days when he was absent on privilege leave.

Tour.

Mr. Quin's tour was more complete this year, as he was able to visit the whole of his charge, with the exception of a portion of the Kaira District.

Season.

3. The season was, on the whole, not good. Cotton where abundant suffered from the fall in price, and wheat was not a good crop, owing to the failure of the late rain.

Number of Estates under Acts VI of 1862 and XXI of 1881 in the Ahmedabad, Kaira and Broach Districts.

4. The following table shows the number of estates under the management of the Tálukdári Settlement Officer under Acts VI of 1862 and XXI of 1881 in the Ahmedabad, Kaira and Broach Districts, and the progress made in the settlement of their liabilities:—

District.	Number of Estates under management.	Debt at the beginning of the year			Advances from Government Treasury during the year, and interest accrued up to 31st July 1892.	Payment during the year			Debt at the end of the year			Reduction of debt.	Percentage reduction of debt.
		To Creditors.	To Government.	Total.		To Creditors.	To Government.	Total.	To Creditors.	To Government.	Total.		
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Ahmedabad	67	1,78,176	1,45,798	3,23,974	7,417	19,641	20,240	39,881	1,58,290	1,32,975	2,91,265	32,709	10
Kaira	43	6,679	1,92,836	1,99,515	9,287	375	27,219	27,594	6,304	1,74,904	1,81,208	18,307	9·17

Total ...	117	2,19,005	3,79,360	5,98,365	18,692	23,550	6,364	79,914	1,95,210	3,41,688	5,36,898	61,467	33·13

Estates in the Ahmedabad District.

5. Of the 60 estates managed under Act VI of 1862, one was removed from management, the debts having been paid off, and it is stated that it is in a satisfactory condition. The remaining 7 estates in the Ahmedabad District, though removed from management under the Act, will continue under management until the debts due to Government are liquidated. One of these was released during the year, the Government dues having been paid. Thirty-six estates are managed by the Tálukdárs themselves, and three by the creditors under special arrangement. The remaining 26 estates are under the direct management of the Tálukdári Settlement Officer.

Progress of debt settlement.

6. The progress of settlement has been satisfactory, as the reduction of debt was 10 per cent., or double that of the preceding year. Rs. 19,641 (including an advance of Rs. 245 from Government) were paid to private creditors, and Rs. 20,240 to Government. Thirty estates are indebted to Government for the sum of Rs. 1,32,975, while the debts to private creditors amount to Rs. 1,58,290.

7. Of the estates in the Ahmedabad District, the condition of Návda, held by Kasbati Latifkhan and Makhiáo is not satisfactory. The Bhal drainage project, the benefit of which is open to doubt, is still under consideration. The latter estate owes Government the very considerable sum of Rs. 38,731, while it was able to pay only Rs. 3,100 during the year.

Estates in an unsatisfactory condition.

8. In the Kaira District one estate was released during the year, and 42 remained under management. Rs. 375 were paid to private creditors, and Rs. 27,219 to Government, and the remaining debts amount to Rs. 1,81,208. The reduction of debt is not so satisfactory as in the previous year, the percentage reduction being 9·17 against 10·09; but this falling off has been satisfactorily explained. The Thákor of Napad was allowed to manage his estate himself, paying a stipulated sum annually towards the liquidation of his debts.

Estates in the Kaira District.

9. There has been no change in the number of estates under management in the Broach District. The 7 estates paid Rs. 3,534 to private creditors, and Rs. 8,905 to Government, and the remaining debts amount to Rs. 64,425. The ratio of reduction of debt is 13·95 against 15·4 per cent. last year. The decrease is due to the circumstances explained in connection with the estates of Sárod, Magnad and Janiádra. In the lastmentioned estate, a drainage channel has been excavated, which it is expected will lead to a certain water-logged area being brought under cultivation. The scheme for the liquidation of the debts of the Sárod estate referred to in paragraph 28 has recently been submitted to Government; but it is a question whether either the provisions of Act XXI of 1881 or Bombay Act VI of 1888 justify a Tálukdári estate being kept under management merely to protect the Thákor from evil action, or to pay off his debts even when he and his creditors are consenting parties. The point is one for settlement by the law officers of Government. All the estates in the district are reported to be making satisfactory progress in the liquidation of debts.

Estates in the Broach District.

10. During the year four minors' estates were released from management on the owners attaining majority, while 13 were taken under management, the total number under management during the year being 54 against 45 last year. Forty-seven belong to Ahmedabad, 2 to Kaira and 5 to Broach, 13 are unencumbered, and 6 of these have large balances to their credit. A proposal is now before Government for investment of the surplus balances. The remaining estates are more or less involved in debt; but 11 are heavily encumbered, particularly the estate of the Kazi of Broach.

Minors' Estates.

Education of Minors.

11. Mr. Quin has paid special attention to the education of minors, who are attending village schools.

Other estates under the Tálukdári Settlement Officer.

12. The following estates were also under the management of the Tálukdári Settlement Officer—

18 by consent of the owners under sections 26 and 28 of Act VI of 1888 and for various other reasons.

12 under attachment for default in payment of the Government *jama*.

378 under section 320 of the Civil Procedure Code and process of sale.

7 under section 504 of the Criminal Procedure Code.

Thus the total number is 415 against 320 in the preceding year. The largest and most important of these estates are those of Koth and Dewan, which are managed under section 26 of Act VI of 1888, and Gangad, which is under attachment, and regarding the succession to which litigation is still in progress. Its financial condition at present is not satisfactory; but it is hoped that if Government accord sanction to certain proposals, which have already been submitted for the payment of debts by loans raised at lower interest than that paid on existing loans, its condition will be considerably improved. The proposal to make over to the Collector's

Gangad Estate.

management about 19,837 acres of waste land, with a view to its being brought under cultivation has been negatived by Government Resolution No. 6199, dated 1st August 1892. Experiments are being tried to grow bábul in other waste land which is available. As regards the boundary dispute referred to in paragraph 49, a copy of Government Resolution No. 2475, dated 8th April 1892, will be communicated to Mr. Quin. The reason for any further delay in making the award on Mr. Beaman's part is not understood.

Koth Estate.

13. The management of the Koth estate under the Deputy Manager, Mr. Huthising Ráechand, has been most successful. The revenue has risen from Rs. 1,33,716 to Rs. 1,40,932, and the collections have been made with very little pressure. There is a large surplus balance of Rs. 45,916, and, after deducting a certain sum for current expenditure, the remainder will be handed over to the Thákor. Under the law there is no help for this; but Mr. Quin hopes to prevail on the young Thákor to utilize the amount in payment of certain debts due by him. The separate report of the Deputy Manager gives full details of his management. During the year a police force, which had been maintained for some years past at the expense of this estate, has been withdrawn under the orders of Government.

Revenue charge of the Tálukdári Settlement Officer.

14. There has been an addition of one village to those under the revenue charge of the Tálukdári Settlement Officer in the Ahmedabad District, the number now being 357. The Government revenue, including local funds, from these villages amounted to Rs. 3,70,496 against Rs. 3,79,867 in the preceding year, and the decrease is principally due to the diminution in the amount levied as local funds from the Thákor of Limbdi, whose appeal to the Secretary of State has been successful. He now pays Rs. 700 only in place of Rs. 9,000 as fixed by Government. The whole *jama*, except a small sum in the Sánand, and Rs. 4,620 in the Dhandhuka Táluka, has been collected. Of the latter amount Rs. 3,805 will as usual be written off owing to the poverty of the Návda estate, from which it is due.

14 *a*. In paragraph 77 the Tálukdári Settlement Officer refers to his proposals in connection with inspection and repair of boundary marks. These proposals are mainly to bring the system into accord with that specified in the Land Revenue Code, and to abolish the fund which is now maintained. The fund now amounts to the considerable sum of Rs. 26,110 and proposals have also been submitted as to its disposal.

Revision Survey.

15. The revision survey of the Tálukdári villages is making satisfactory progress under Mr. Holland. The work in the Sánand Táluka has been completed and that of Viramgám is approaching completion.

Execution of decrees.

16. The number of decrees received for execution under section 320, Criminal Procedure Code, was 151 against 161 in the previous year, and, including the number brought over from the previous year, the total number amounted to 797. Of these, 500 were against estates under management 83 were against estates under process of sale, 116 were returned to the Courts, and 98 were under enquiry.

Of those returned to the Courts, 49 were compromised or satisfied, and in 57 Government declined to sanction sale. Rs. 38,927 were paid to creditors against Rs. 63,818 in the previous year.

Partitions.

17. Seventeen applications were received for partition under section 15 of the Act against 15 in the previous year. The total number for disposal including the balance of the preceding year was 23. Seven applications were granted and 10 were refused for various reasons, while 6 remained undisposed of.

Suits.

18. Including appeals there were 37 suits for disposal during the year. 9 were decided and one was compromised under the orders of Government.

Outstanding balances.

19. The subject of outstanding balances is very fully dealt with, and the year's results show that in the Ahmedabad District the percentage of collections is higher and that of

outstanding balances is lower than in the previous year; while the reverse is the case in the Kaira and Broach Districts. Remissions have been granted to a considerable extent, in Ahmedabad Rs. 20,407, Kaira Rs. 13,172 and Broach Rs. 5,505, or a total of Rs. 39,084 against Rs. 9,312 in the previous year; but the principle upon which this large sum has been remitted is sound, as the amounts found on careful enquiry to be irrecoverable have been struck off. The outstanding balances are, however, still large. They amount to Rs. 49,613 in Ahmedabad, Rs. 18,950 in Kaira and Rs. 34,713 in Broach, or a total of Rs. 1,03,276 against Rs. 97,973 in the previous year. In the first-named district the largest proportion is due in the Dhandhuka Táluka, where the season was unfavourable. Rs. 13,393 are also due in the Sánand Táluka, principally on account of the Koth estate. In the Broach District Rs. 21,839 are on account of loans and are not arrears of land revenue. In the Kaira District the larger proportion belongs to the Dehwan and Nariad estates, and it appears that in the former the younger brother of the Thákor collected a large sum from the tenants, and inquiries are being made as to the probabilities of the money being recovered. In the case of the latter, enquiries have shown that the greater part is irrecoverable, and it has been decided, with the consent of the trustees of the estate, to write off Rs. 8,574.

Working of the Gujarát Tálukdárs' Act.

20. Mr. Quin states that the Gujarát Tálukdárs' Act is working smoothly. In the matter of partitions the recent decision of the District Judge confirmed by the High Court has limited the action of the Tálukdári Settlement Officer to cases in which there are no disputes. In paragraph 115 Mr. Quin raises an important question as to whether an alienee is entitled to demand partition under section 10; but it appears that so far demands have not been complied with and no objection has been raised.

Application for loans.

21. Including the pending cases of the previous year, there were 79 applications for raising loans, and in 30 cases the required permission was granted; while 27 applications were rejected. In one case the loan was required for marriage expenses, and in the rest for raising loans with a view to lower the rate of interest on old debts.

Sale of Tálukdári Estates.

22. No Tálukdári estate was sold in execution of a Court's decree; but alienations of portions of estates were allowed in 4 cases.

Jubilee Memorial Institution.

23. An application has already been made to Government for the lease of a portion of the Gáikwád's Haveli for the use of the Tálukdárs' Jubilee Memorial Institute, which is to serve as a lodging for Tálukdárs visiting Ahmedabad, and partly as residential quarters for Tálukdárs' sons attending school in the city of Ahmedabad. The institution will be managed by a committee of six Tálukdárs with the Tálukdári Settlement Officer as Chairman.

24. Mr. Quin has fully maintained the high opinion the Commissioner formed of his work last year.

J. K. SPENCE,
Commissioner, N. D.

Annual Reports: Administration Report of the Tálukdári Settlement Officer for the year 1891-92.

No. 3203.

REVENUE DEPARTMENT.

Bombay Castle, 3rd May 1893.

Memorandum from the Commissioner, N. D., No. 3525, dated 3rd October 1892—Forwarding, with his remarks, a letter No. 625, dated 4th August 1892, from the Tálukdári Settlement Officer, who submits his Annual Administration Report for 1891-92.

RESOLUTION.—Mr. Quin has submitted a full and clear report which has been sufficiently reviewed by the Commissioner, N. D., and Government have little to add to the Commissioner's remarks in which they generally concur.

2. The results of the year's administration are on the whole satisfactory. As regards outstanding balances early steps should be taken to write off the sums that are found after careful enquiry to be incapable of recovery.

3. The Tálukdári Settlement Officer's report on the question of investing surplus balances of minors' estates under his charge is at present under the separate consideration of Government. The recent appointment of a Deputy Manager for the Gangad Estate, the financial condition of which is reported to be very unsatisfactory, will, it is hoped, improve the affairs of that estate. The question raised by the Commissioner in paragraph 9 of his review regarding the liquidation of the debts of the Sárod Estate has been disposed of by the orders passed in Government Resolution No. 750, dated 27th January 1893.

4. With regard to Mr. Quin's complaint as to the slow progress that has till now been made in the settlement of the boundary dispute between the Gangad village of Siál and the Limbdi village of Bávli, extract paragraph 49 of the Tálukdári Settlement Officer's report should be forwarded to the Political Department with reference to Government Resolution in that Department, No. 2475, dated 8th April 1892, for such action as may be deemed necessary.

5. The difficulty in obtaining a suitable building for the Tálukdárs' Jubilee Memorial Institute will, it is hoped, be met by the arrangements sanctioned in Government Resolution, Public Works Department, No. 386-A.—1423, dated 5th September 1892.

6. The attention of the Tálukdári Settlement Officer should be drawn to the following discrepancies in the figures as given in the report and its appendices:—

(*a*) the number of estates under processes of sale received under Section 320, Civil Procedure Code, by the Tálukdári Settlement Officer during 1891-92 is shown in Appendix IX, Part II, to be 135 whereas in the statement embodied in paragraph 5 of the report it is given as 137;

(*b*) the opening balances of the minors' estates managed by the Tálukdári Settlement Officer under Act VIII of 1890 in 1890-91 and 1891-92 being Rs. 1,23,955 and Rs. 1,47,962 respectively, the difference between the 2 years' figures is Rs. 24,000 and not Rs. 27,000 as given in paragraph 40 of the report;

(*c*) The actual totals of the charges for collection of revenue and Tálukdári Settlement Officer's establishment are Rs. 38,068 and Rs. 15,484

Digitized with financial assistance from

Government of Maharashtra

on 01 February, 2020

respectively, and not Rs. 37,632 and Rs. 15,466 as given by Mr. Quin at the foot of columns 10 and 11 of Appendix XII. Even assuming the latter figures to be correct, the total of charges of all kinds as given in the table appended to paragraph 103 of the report comes to Rs. 4,17,111 and not Rs. 4,16,517.

G. W. VIDAL,
Acting Chief Secretary to Government.
